## U. S. BRANDS RED SATELLITES PEACE MENACE

Yugoslavia, Bulgaria And Albania Blasted Before Security Council

LAKE SUCCESS, July 23 (AP)—The United States suddenly removed diplomatic wraps today and bluntly told United Nations Security Council that Yugoslavia, Albania and Bulgaria were a menace to international peace.

American envoy delegate Herschel V. Johnson said there was not "the slightest evidence of civil liberties" in the three Soviet satellites and "a dictatorship is a dictatorship no matter what you call it."

He demanded that the council warn the three nations "to keep order in their own houses and leave other peoples affairs alone" lest a war break out in the Balkans affecting the whole world. It was the second time in a U. N. meeting today that diplomatic talk was dropped.

Noting that Johnson had begun to speak candidly, Soviet Deputy Foreign Minister Andrei A. Gromyko jumped into the debate to say:

"Bulgaria, Yugoslavia and Albania do not need the advice of the United States on their internal order. If such advice is given from the rostrum of the United Nations, although not asked for, the only explanation is that these authors overestimate the importance of their advice."

"There has been much talk of Monarchy-Fascism as if that were the only form of government that might be objectionable to some people," Johnson said. "We have no brief for the Greek government as such, but Greece is not a menace to international peace. We think her three northern neighbors are."

Previously Russia's vigorous defense of Albania in a U. N. membership committee touched off one of the strongest personal attacks ever leveled at a Soviet delegate here.

Stripping off all diplomatic language, Britain's Valentine G. Lawford termed a speech by Alexei N. Krasninkov, chief U. N. deputy to Andrei A. Gromyko, "junk" and said it was "deplorable" that U. N. delegates should be subjected to such tirades "day after day."

The United States and Australia quickly joined in lambasting Krasninkov, Soviet delegate to the committee and former minister to Iceland.

As Albania's application for U. N. membership was under fire in the (Continued on Page Sixteen)

## Publisher Field Seeks to Purchase Chicago Newspaper

CHICAGO, July 23 (AP)—Marshall Field, publisher of the Chicago Sun, announced today he had offered to buy the Chicago Daily Times after noon tabloid "to expand my Chicago newspaper interest."

Field said he had offered \$60 a share for the stock of the Times, and that Richard J. Finnegan, publisher of the Times, and two of his associates "are agreeable to that price" and were transmitting Field's proposal to their fellow stockholders.

Finnegan said there were 85,000 shares of Times stock outstanding and that "Mr. Field will buy all shares that are offered to him." In the event that all outstanding shares were sold to Field, the total purchase price of the Times would be \$5,100,000.

The Times publisher said Field had stipulated that "at least" 65,000 shares—roughly 75 percent of the total—should respond favorably by Aug. 25, when the time is extended.

This would add a decision on Field's part to spend at least \$3,900,000 for controlling interest of the Times.

Field said he would remain as publisher and editor of the Sun.

The Sun's publisher stated he hoped to publish the Sun in the morning the Times in the afternoon, and a Sun-Times on Sunday. All would be in tabloid form.

Field currently has no interest in Chicago's afternoon newspaper field. The Sun is a standard-size, morning newspaper.

Field also is publisher of the New York tabloid PM.

"If the stockholders of the Times respond favorably," Field's announcement said, "my intention is to preserve the policy, staff and managerial personnel of the Times with Mr. Finnegan in his present post as editor and publisher." Field said Finnegan also would be made executive vice president of the Sun.

THE WEATHER For Eastern Pennsylvania: Sunny and continued cool today.

## Officials Open Bids for Community Improvements

Bids for two local community improvements were opened last night. At the left, Peter Dori (left) and Russell P. Yost, West Pottsgrove township commissioners, look over plans for a sewer system in their community before the bids were opened at 8 o'clock last night. About four miles of sewers will be constructed this year, supplying service to 80 percent of the population of Stowe. At the right, Borough Solicitor C. Edmund Wells (left), Borough Manager Dow I. Sears (center), and Chairman J. Max Creswell of the special water committee of Pottstown borough council, open bids for a bond issue to purchase the Pottstown Gas and Water company, and for the fire improvement issue.

## Gun-Toter Arrested Near Senate Chamber

WASHINGTON, July 23 (AP)—A man with a pistol in his pocket was arrested in the capitol today just after President Truman had made a precedent-shattering visit to the Senate chamber, but officers expressed confidence there was no connection between the events.

Edward P. McGinnis, Senate sergeant at arms, told reporters the man identified himself as Clifford R. H. Spires, 39, of Augusta, Ga. He added that the man had been a patient in a veterans hospital at Augusta.

Spires was taken into custody in a washroom one floor below the Senate chamber by policemen who said they noticed the weapon in his hip pocket.

McGinnis declared it was "purely coincidental" that the arrest took place only five minutes after Mr. Truman had delivered his "peace speech" one floor above the "ex-Senator from Missouri." The President left the building immediately after his appearance on the Senate floor.

Pvt. Lorain Crump of the Capitol police told newsmen he noticed the gun in Spires' pocket when they were together in the washroom.

Crump called Pvt. Paul G. Shelby, who asked the man if he had a permit for the pistol.

Both officers said Spires denied he had a gun, but they searched him and found a .25 caliber automatic. He was taken to the District of Columbia-operated Gallinger hospital for examination.

McGinnis said he believed Spires would be held at the hospital "probably for 30 days" for observation.

Later, Spires was taken to a police station and charged with carrying a concealed weapon.

McGinnis said five cartridges were found in the pistol, three of them showing firing-pin marks as though an unsuccessful effort had been made to fire them. One of the two unmarked cartridges was in the firing chamber.

Spires, six feet tall and weighing 145 pounds, appeared dazed when reporters saw him just before he was taken to the hospital.

Gray haired, thin faced and dark of complexion he appeared older than the age of 39 which he gave. The affair took place near the spot where two pistol snots were fired July 12 at Senator Bricker (R-Ohio) Bricker, boarding the subway car that carries senators between the Capitol and their office building, escaped unhurt.

A man identified by Bricker and others as William Kaiser, a former Capitol policeman, was arrested later by Washington police and charged with assault with intent to kill.

Mr. Truman paid his visit to the Senate on a date after a luncheon and a Senate session on Sunday. All would be in tabloid form.

Field currently has no interest in Chicago's afternoon newspaper field. The Sun is a standard-size, morning newspaper.

Field also is publisher of the New York tabloid PM.

"If the stockholders of the Times respond favorably," Field's announcement said, "my intention is to preserve the policy, staff and managerial personnel of the Times with Mr. Finnegan in his present post as editor and publisher." Field said Finnegan also would be made executive vice president of the Sun.

## Boston Suspect Is Quizzed in County Slaying

A suspect, formerly of Philadelphia, was being held in Boston yesterday in the rape-slaying case of five-year-old Carol Ann Thompson, Upper Gwynedd child who was discovered dead on May 10 in Westchester township, following her abduction while playing near her home.

Frank Wilson, of the Boston police, claimed the suspect has told contradictory stories concerning his acquaintance with the brutal murder, and that all of them suggest a companion, known only as "Ray Smith, of Camden, N. J.," as the probable killer.

In a police lineup yesterday, the suspect, described as a member of a well-known Boston family, retracted what he told Wilson with the explanation that he had been drinking when taken into custody and did not know what he was saying.

Identified as George Nicholas, 29, the suspect was reported to have been a former Boston resident, but (Continued on Page Seven)

## Lamb to Press County for Action On Making Layfield Road Safe

"Definite action" to try to prevent another fatal accident on the Layfield road, such as that that took a young woman's life and seriously injured a man Monday, was promised after last night's meeting of the board of directors of the Pottstown Automobile club.

William P. Lamb Sr., president of the club, said he would discuss the matter with County Commissioners Fred C. Peters and Foster C. Hille-gass as the first step in a determined campaign to make the road safe for motorists.

"I'm going to find out what is definitely going to be done," Lamb emphasized last night. "This situation is too dangerous to go on any longer."

Previously, Lamb had condemned the road as a "death trap" and said that if necessary, he would carry the fight directly to Governor James H. Duff in Harrisburg.

In spite of the recent tragedy, any immediate action on the widening of the road appeared doubtful yesterday as Joseph Bedard, assistant to D. C. Stockpole, district engineer of the State highway commission, said his department must follow the plan laid down for the year.

Bedard pointed out that it would be almost impossible to muster enough money men and equipment to start work on the road before its turn on the over-all highway department plan.

According to Bedard, the department has the road-labeled for repair but he could not say when work on it was scheduled to begin.

Three other topics discussed by the 24-man automobile club board last night were a review of the driving school held here recently, plans for the automobile club picnic in September, and plans for a new organizational building on High street.

O. C. Beacraft, manager of the club, will make a study of the school (Continued on Page Sixteen)

## Layfield Crash Driver In Serious Condition

Milton S. Longacre, Pennsburg driver of an auto which collided with a huge trailer-truck Monday morning on the Layfield road four miles north of Pottstown and which caused the death of Margaret Batzel-Obojski, was still in serious condition in the Pottstown hospital last night, said Dr. C. B. Lerch, Pottstown physician.

Longacre was taken to the hospital following the accident with lacerations of the head and a possible skull fracture.

## Stowe Sewer System Contract Bids Opened

Bids for the first four miles of a 13-mile sewer system to be constructed in West Pottsgrove township were opened last night by the commissioners, meeting in the West End Fire company hall.

The announcement of the awarding of contracts will not be made for several days according to Russell P. Yost, Stowe, secretary of the commission, since 21 separate items were bid upon, and they all must be scrutinized. In addition, the prices named were very close to each other.

"We have six days within which to decide which bid to accept, or to reject them all if they are too high," he said last night. "Work is scheduled to begin within 14 days after the contract with one of the construction firms is signed."

The current sewer project will include the center parts of Stowe, servicing about 80 percent of the population. The remainder of the work should be completed next year. A bond issue of \$80,000 was floated

## Grange Supports Widening of Road

Members of the Community Grange at New Hanover passed a resolution at their meeting last night, asking the Montgomery county Safety council to seek State aid to widen Layfield road between New Hanover and Pennsburg, to prevent a repetition of Monday's fatal accident.

In a lengthy business contest the Grangers also arranged for an ice cream festival to be held at Zern's market in Gilbertsville Wednesday evening.

A dress contest will be held at the New Hanover Grange hall on August 27, with the fashion show scheduled to move on to the Pomona Grange the following Wednesday September 3.

Members were informed that the Pomona Grange would hold their picnic Saturday at Montgomery county park, Green Lane, with Beatrice H. Dimm, Indiana, Pa. State lecturer for the Grange, the scheduled speaker.

The remainder of last night's session was devoted to informal games and guessing contests.

## Girl's Arm Is Broken In Fall From Tricycle

Little Marilyn Lichtman, four-year old daughter of Mr. and Mrs. Herman Lichtman, 1424 Sunset drive, suffered a fractured right arm just below the shoulder when she toppled from a tricycle early last night.

An older playmate was pedaling the three-wheeler when Marilyn, standing over the rear axle, lost her balance and struck the side walk in front of the family residence. She was admitted to the Memorial hospital after being taken there by her mother.

## Water Holdings Acquisition Expected Within 3 Weeks

## 10% Tax on Theater Tickets Voted by Borough Officials

Borough council last night unanimously approved a more recommended by the finance committee, J. Max Creswell chairman, to impose a 10 percent tax on admission fees of Pottstown's two motion picture theaters.

First reading of the new tax ordinance which was read by Borough Solicitor C. Edmund Wells was passed unanimously on motion of Creswell.

A new license ordinance passed some months ago by council had imposed a 5 percent tax on theater admission fees. The theater chains fought the action in Montgomery County court and the case is still pending.

In the meantime, the State legislature passed an act signed by Gov. James H. Duff which authorizes municipalities to levy taxes without restraint. Wells said the finance committee, therefore, decided to proceed with taxation without regard to the outcome of the case in court.

It is estimated the 10 percent tax will bring \$30,000 to \$35,000 into the borough treasury annually. Wells said the city of Philadelphia imposes a tax of 20 percent on theaters. He admitted there has been, according to a survey, a drop of 22 percent in theater attendance throughout the United States in the past six months.

MAN WOUNDED WHILE HUNTING Zieglerville Resident Is Shot Accidentally by Neighbor; Condition 'Fair'

Harold L. Aston, 22 of Zieglerville received an accidental charge of buckshot in the back of his head neck and shoulders last night while he and a friend were hunting in a field in Zieglerville.

He was taken to Memorial hospital where Dr. S. Russell Ash of the hospital staff, said he would be treated for shock during the night before a more thorough examination of his wounds could be made today. Shortly before midnight his condition was reported as "fair," and he was resting quietly.

The youth was shot accidentally by Daniel Hersch, 40, also of Zieglerville, who said he mistook Aston for a groundhog. Aston was kneeling in two feet of weeds in a field owned by Manuel Reiter, Zieglerville, and was wearing a brown hunting cap at the time.

Hersch stood about 60 feet away from Aston, State police of the Collegeville sub-station said, and fired at him downhill. The mishap occurred at 7:15 o'clock last night.

Immediately after the shooting, Aston was taken to the hospital by John Duse, accompanied by Charles Smith and Charles Christman, Aston's brother-in-law. The men all are neighbors in Zieglerville.

Hersch's hunting weapon according to the police, was a 12-gauge double-barreled shotgun. Aston was using a .22 caliber single shot rifle.

State Troopers James L. Capparelli and Charles Sisby, who investigated the accident, said that Hersch would not be held last night since he already was suffering from a heart condition, and to be taken into custody would endanger his failing health.

St. Swithin's Average Falls as Rain Doesn't St. Swithin . . . 778 percent.

The old boy is beginning to lose his touch. The spirit is becoming too tough for him. Yesterday's meat and mustard, St. Swithin's damp and musty, deals a nasty blow, and recovery might be a hard thing to accomplish.

Low temperatures yesterday, ranging in the 60s and low 70s, were a great comfort to Pottstownians over last week's miserable humidity. The air was cool, and the sun felt good—and St. Swithin mourned.

Today is scheduled to be sunny and continued cool.

## Mechanic Says Many Autoists Waste Fuel; Cites Other Faults

In the face of rising gasoline prices, Roy Krause, veteran Pottstown mechanic, said yesterday that careless driving habits are costing the average driver three or four miles on each gallon.

With major oil companies boosting their price to 23 cents for ordinary gasoline and to 25 cents for high-test, correction of these habits, Krause went on, would save money, conserve gasoline, and give the motorist extra mileage.

Such driving faults as rapid acceleration in low and second gears, and driving in low gear for long distances before shifting to high gear, waste gas and cost the motorist mileage, he stated.

Krause based his observations on the results of a test he and his partner, J. G. Lidwack, conducted with 175 drivers. In the test, using the same car over the same course, with only a quart of gasoline in the tank it was found that the mileage covered by each driver would vary between eight and 26 miles per gallon.

He pointed out that in low gear or second gear, a motor is turning over two and a half or five times more than it is in high gear. Consequently, the car uses more gasoline.

Another fault cited by Krause was the habit of some drivers to leave their motors running while their cars were parked. He related that in one instance he checked, the (Continued on Page Seven)

## SYNDICATE GETS COUNCIL'S NOD ON BOND ISSUE

1 1/2 Percent Interest Rate Approved on 1 1/2 Million; Fire Service Bids Opened

Final acquisition by the Borough of Pottstown Gas and Water company within three weeks was predicted last night by Borough Solicitor C. Edmund Wells following action by Borough council in announcing successful bidders for the \$1,500,000 water purchase bond issue and the \$45,000 issued for improvement of the fire service here.

Burgess Griffith asked Wells when the borough might be expected to gain possession of the company's physical assets.

Wells said a contract for printing the bonds has been awarded to E. A. Wright and company, of Philadelphia, with delivery promised in ten days time. The bonds were to be signed by President of Council C. Roy Dush and Borough Manager Dow I. Sears.

The cash is expected to be delivered in about three weeks and the escrow agent for stock of the water company, the Security Trust company, then will be paid and the stock will be delivered. When this is done, the borough will actually be the owner of the water company's holdings and Borough Manager Dow I. Sears will be in charge.

Wells said, however, there will be some delay as the water company and its two subsidiaries must be dissolved and the formality may take a month after the borough actually takes possession. When the secretary of the Commonwealth issues a certificate of dissolution all of the technical matters will be at an end.

The successful bidder for the big issue last night was a Philadelphia syndicate composed of the firms of Butcher and Sherrerd, Graham, Parsons and company, A. E. Master company and Edward Lowber Stokes company.

Their bid was as follows: Interest, 1 1/2 percent with a premium of \$5695.50 on callable bonds.

The fire improvement issue was awarded to the National Bank of (Continued on Page Sixteen)

## Norristown Driver Escapes Flames in Accident at Trappe

H. W. Bower, Norristown, narrowly escaped a flaming death yesterday afternoon when his car crashed on the side of Route 422 and burst into flames in front of Munick's service station in Trappe.

The accident occurred at 1 o'clock when the left rear wheel came off Bower's car as he was driving west along the highway. The runaway wheel ripped the cap and part of the filler pipe from the gas tank as it plunged down the road.

The car swerved across the pavement out of control. Its dragging axle shooting a stream of sparks into the gasoline filling the side of the road and stopped. Bower leaped from his seat just as the car burst into flames.

"That was the fastest I've ever seen anyone get out of a car," an on-looker declared.

Summoned to the blaze, the Trappe fire company extinguished the flames within ten minutes using a small chemical tank and a booster line.

G. L. Rambo, a member of the company said the car was destroyed. No one was injured in the accident. Collegeville sub-station. State police said there would be no investigation of the mishap.

## Legislator Thinks Highly of Chickens; Wants Special Stamp to Honor Poultry

By ARTHUR EDSON  
WASHINGTON, July 23 (P)—The 100,000 chickens in the country soon may have something they really can call a crow about.  
Rep. R. S. Sisk (R-Conn.) has introduced in Congress a resolution calling for a special stamp in the chickens' honor.  
Sisk did this at the request of the Cackle and Crow club of New Haven, Conn. Its members naturally are quite excited because exactly 100 years ago this nation had its first poultry show.  
"Want to talk about progress? Want to talk about tremendous achievements? Well, then, talk about chickens," Sisk said.  
"Like man, other immigrants, says the Department of Agriculture in a tribute to its feeble 40 years, the modern chicken has found the United States a land of opportunity. And indeed it has. Few chickens

ever think much about it now but their ancestors came from the jungles from New Guinea, Java and Malaya.  
They were taken into Europe, and from there to the American colonies.  
The chickens liked the new environment fine—so much so that now one out of every three chickens in the world lives in the good old U. S. A.  
And now for some feathered facts.  
Farmers get \$3,000,000,000 from their chicken crop each year.  
Lose a mattress feather, a hen can get angry. A "cackling" on the job. But she once found that 86 eggs were a day's work. The average hen now has been boosted to 113, and in good "flocks" smart clucks do twice that well.  
A lizard has nothing to do with a chicken's digestion. A rooster had one removed, felt fine, lived four more years.  
An eating chicken soon may be built to specifications. A National grocery company (the A & P) decided it wanted an ideal chicken, and offered a reward for same.  
This creature should have a broad breast, meaty legs and grow so fast it will be tender when it reaches 12 to 14 pounds.  
Chicken breeders with the enthusiastic cooperation of the chickens—already, are fairly close to that goal.  
It's the first time in history, says an agriculture man proudly, that anything like this ever was developed from a blueprint."

## IF STOMACH BALKS DUE TO GAS AND BLOAT

Help Get Food Digested to Relieve Yourself of This Nervous Distress

Do you feel all puffed-up and miserable after every meal, taste sour, bitter food? If so, here is how you may get blessed relief in helping your stomach do the job it should be doing—in the digestion of its food.  
Everytime food enters the stomach a vital gastric juice must flow normal to break-up certain food particles. else the food may ferment. Sour food acid indigestion and gas frequently cause a morbid, touchy, fretful, nervous condition, loss of appetite, underweight, restless sleep, weakness.  
To get real relief you must increase the flow of this vital gastric juice. Medical authorities in independent laboratory tests on human stomachs have by positive proof shown that SSS Tonic is amazingly effective in increasing this flow when it is too little or scanty due to a non-organic stomach disturbance. This is due to the SSS Tonic formula which contains special and potent activating ingredients.  
Also SSS Tonic helps build up non-organic weak watery blood in nutritional anemia—so with a good flow of this gastric digestive juice plus rich red blood you should eat better, sleep better, feel better, work better, play better.  
Avoid punishing yourself with over-doses of soda and other alkalis to counteract gas and bloating when what you so dearly need is SSS Tonic to help you digest food for body strength and health. Don't wait! Join the host of happy people SSS Tonic has helped. Millions of bottles sold. Get a bottle of SSS Tonic from your drug store today. SSS Tonic helps Build Sturdy Health.

## Held in Slaying

Looking unworried, George Thomas Lee, 17, is pictured at Des Moines city jail after admitting, according to police, that he was wanted for the slaying of eight-year-old Charles Mulholland in Lincoln, Neb.

A waif in Lincoln, Neb., the opposite of a ghost for it means the appearance of the spirit of a living person.

## Find Woman's Body in Baltimore Harbor

BALTIMORE, July 23 (P)—The nude body of a woman, encased in weighted canvas wrappings bound with rope, was found floating among the docks in the Baltimore harbor today.  
Dr. Walter Carmine, Baltimore county medical examiner, said there was a gaping head wound, which may have been caused by a bullet. He said the body had been in the water about three months. The jaw had been fractured in four places.  
Two crane operators on the coal dock of the Gas and Electric company's turners station generating plant, in the lower harbor, discovered the body.  
Three different types of rope were

bound about the canvas, trussing the body from head to foot.  
A piece of baling wire was looped around the canvas at the waist, and police theorized may have supported another weight.  
Two 38-pound pieces of pig iron and several sections of lead pipe were also wrapped in the canvas.  
Dr. Carmine said the woman appeared to have been about 30 years old and had long brown hair. He said identification may prove difficult because of the advanced state of decomposition.

THURSDAY, JULY 24, 1947

Economy is half the battle of life;  
it is not so hard to earn money, as to  
spend it well.—Spurgeon.

## Action, Not Promises

THERE'S a terrible indictment for the State  
in the words of William P. Lamb Sr.,  
president of the Pottstown Automobile club:  
"We have been fighting to have that road  
widened and improved for the past ten years."  
That road is the Layfield road, one of  
the most dangerous in this area.

Two women were killed on that road  
within the past few months.

Countless accidents have happened on it.  
Residents along the road complain about  
"crawling" on it, of near accidents, of  
screaming brakes, smashes and shattered  
nerves.

Motorists complain of its narrowness, of  
the limited vision occasioned by the many  
rises and falls that resemble a roller coaster.

And yet the State Highway depart-  
ment turns a deaf ear on these com-  
plaints and suggestion "for the past ten  
years."

That is a sad state of affairs in these  
days when traffic safety is uppermost in the  
minds of all.

What must happen before the State will  
widen the road, or improve its visibility?

Must more blood be shed? More lives  
lost?

Aren't the lives of two women sufficient  
amalgam on the county safety record to cause  
the State Highway department to take im-  
mediate steps to improve the road?

Shouldn't safety engineers be on the  
scene today to remove the hazards?

The Pottstown Automobile club has had  
vague promises from State Highway engineers  
that "something will be done."

That type of promise is not going to  
pacify the irate motorists any more. Too  
many accidents, too many injuries, too  
many deaths now make him insistent  
that the road be improved immediately.

The State must act. It cannot wash its  
hands of the blood already spilled.

A Piece of Inflation

THE bill to permit veterans to cash terminal  
leave bonds after Sept. 1 was the kind of  
legislation nobody wants to vote against.  
More than 8,500,000 ex-service men, and that  
many prospective votes, were involved. So  
the Senate passed the House-approved measure  
by 85 to 0 and sent it to the President.

This means that securities valued at \$1,-  
000,000,000 can be turned in for cash. The  
effect of the bill, of course, is inflationary.  
Moreover, chances are that the veterans will  
get less for their money by spending it now  
than if they were to hold the bonds until the  
original redemption date, five years from issue.

But Speaker Joe Martin had one argument  
on his side. He said cashing the bonds now  
would reduce the national debt. Moreover,  
since wages and profits and prices are all  
going up, it was hard to reject the claim of  
veterans' organizations Extra money for  
them is no more inflationary than extra  
money for other people.

The job is done. But it will be better for  
the country, and wiser for the veterans, if  
they hold onto these bonds as long as they  
can.

## Travel Cheaper by Plane

FOR traveling salesmen with a lot of ground  
to cover, it's cheaper to travel by private  
plane than by auto," Business Week asserts.

With a Navion plane, furnished by North  
American Aviation, Inc., and salesmen fur-  
nished by Butler Manufacturing company in  
Kansas City, these results were produced in  
a 24-day test:

Distance traveled, 6447 mi.  
Travel time, 55 hr., 37 min.  
Cost of fuel, oil, storage, etc., \$341.93  
Cost per mi. \$0.053  
Cost per hr., \$6.147.

By auto, the same movements would have  
covered 6933 miles and cost, at 7 cents a  
mile, \$485.31 according to Butlers experi-  
ence. Travel time at an average driving speed  
of 40 mph would have been 174 hours, 44  
minutes.

Two factors weight the test in the Navion's  
favor: (1) Cost figures don't include depreciation  
and interest on investment in the plane;  
(2) Butler fabricates airport buildings so sales-  
men promoting transport most of their busi-  
ness at airports thus eliminating the need  
for other transportation.

Dr. Epstein also found that certain  
asthmatics were suffering from a lack of  
calcium or lime, and vitamin C, as well  
as a deficiency of vitamin B-complex. In such  
cases, the giving of calcium preparations and  
vitamins in large amounts may be of benefit.

In all cases of asthma, an effort should  
be made to determine if the patient is  
sensitive to any particular foods, dust, or  
pollen, and of course in such instances,  
the patient should be kept out of contact  
with these substances.

Various crises are helpful in relieving  
the attacks such as epinephrine and  
ephedrine, as well as new preparations  
known as benadryl and pyribenzamine.  
Of course all such preparations should be  
utilized under the direction of a  
physician.

## Grampaw Oakley

PUNKIN CORNERS,  
July 23.

Dear Sir N. Brother:

Wal, I see by the papers where the city  
of Muncie, Ind., started to celebrate its 100th  
birthday, then discovered  
it was only 93 years old.

No woman would ever  
make a silly mistake like  
that!

A headline says:  
"Hollywood Animal Train-  
ers Form Union." In dop-  
ing out a working contract,  
these untrained wild beast  
professors will have to  
make the transition from  
claws to claws!

And say the feminine knee no longer is  
on view on city streets because of longer  
dresses. Maybe that has something to do  
with the increase in bathing beaches' popu-  
larity.

Mopin' you air the same,  
GRAMPAW NED OAKLEY

## Tell Driver Behind

## Way You're Going

Letters must not be more than 250  
words long, of current topics and must  
not involve personalities. Names and  
addresses of writers must be submitted  
as evidence of good faith and will be  
withheld from publication on request.  
Poetic and communications advocating  
the election of political candidates are  
not acceptable.

By MERCURY READERS

## Signal Your Turns

To the Editor: There seems to be a  
great reluctance on the part of Pottstown  
drivers to signal which way they are  
going. As a result the man behind has  
to guess, usually he is wrong and he must  
slam on his brakes to avoid an accident.

A certain set of signals has been de-  
vised to indicate to the driver behind  
whether a left turn, right turn or a stop  
is going to be made. Most drivers, either  
don't know this or they are too lazy and  
reluctant to show consideration to the driver  
behind him.

The evil is especially bad where a car  
is going to make a left turn and does so  
without indicating it with an outstretched  
hand. Not only is the driver behind  
placed in a dangerous position but so is  
the driver of a car coming in the op-  
posite direction.

Many accidents and near-accidents  
which shock a person's nervous system  
could be avoided if a little thoughtfulness  
was shown by motorists.

If every driver would resolve today  
to send hard signals from now on, Pott-  
stown would be a safer town to drive in  
and many exasperated motorists would be  
made happy.

Pottstown

MOTORIST

Educate Youth For Peace

To the Editor: The best means to  
secure world peace is through the proper  
education of the youth of today, world-  
wide. With knowledge there can be peace  
and knowing each other better will create  
an ever-lasting understanding. That, in  
my opinion, is the key to peaceful rela-  
tions with each other, of a lasting nature.

This can be accomplished by bringing  
over here as many youth as possible each  
year for educational purposes, this country  
to pay all expenses.

Suppose it cost us \$5,000,000 a year. If  
we accomplish our purpose it would save  
the world billions of dollars in preventing  
future wars.

Boyetown

P. R. T.

## Eye Appeal Right Here

To the Editor: There is no scenery  
anywhere that is more beautiful than the  
scenery around Pottstown. Take the  
road to Pottstown or the beautiful Chest-  
nut hills in Chester county. You can't  
beat them. Here we have vacation spot  
right in our own yard.

Why don't we try to attract sightseers  
here at other places? It would not only  
often our prestige but also the  
pocketbooks of the storekeepers and  
restaurant owners.

Pottstown

MRS. S. T. H. Y.

## No Special Privileges

To the Editor: I'd like to know why  
it is that doctors get special parking  
privileges. Surely they're no better than  
anybody else, and the few times they are  
called on to make emergency calls don't  
entitle them to private parking places.

Pottstown

G. J. K.

## YOUR HEALTH

By HERMAN N. BUNDESEN, M. D.

MOST of us take breathing for granted  
and so go about this most important  
business of our lives without giving it a  
thought. But the patient with asthma  
knows what it is to fight for breath.

Subject to recurrent attacks of difficult  
breathing, he literally gasps for air, get-  
ting what little he can in wheezing,  
panting breath.

The exact cause of asthma is not  
known, although in many cases the at-  
tacks are due to over-sensitivity of the  
patient to some food which he eats, or to  
some dust or pollen which he breathes in,  
or some substance with which he  
comes in contact.

According to Dr. Alex Epstein, of Bern,  
Switzerland, emotional disturbances often  
contribute to the beginning of asthmatic  
attacks. Often the relief of such emo-  
tional disturbances may require the ser-  
vices of a psychiatrist, that is, a physician  
trained in the treatment of mental and  
nervous disorders.

Nose and throat disorders also are  
important, contributing causes of asthma.

It formerly was the custom, in the  
treatment of asthma, to carry out vari-  
ous surgical procedures such as the re-  
moval of the tonsils, but it was found  
that this often tended to make the at-  
tacks worse. Infections in the sinuses  
should be cleared up when they are pres-  
ent, but operative measures should be  
avoided if possible.

Some patients with asthma are ben-  
efited by change of climate, particularly  
to a warm, dry climate, but these repre-  
sent only a small percentage of those who  
have this condition.

According to Dr. Epstein, many asth-  
matics have a condition of alkalosis, that  
is an increase of the amount of alkali in  
the blood and tissues. In such cases, the  
giving of an acid substance, such as  
phosphoric acid, over a long period of  
time may result in definite improvement.

Dr. Epstein also found that certain  
asthmatics were suffering from a lack of  
calcium or lime, and vitamin C, as well  
as a deficiency of vitamin B-complex. In such  
cases, the giving of calcium preparations and  
vitamins in large amounts may be of benefit.

In all cases of asthma, an effort should  
be made to determine if the patient is  
sensitive to any particular foods, dust, or  
pollen, and of course in such instances,  
the patient should be kept out of contact  
with these substances.

Various crises are helpful in relieving  
the attacks such as epinephrine and  
ephedrine, as well as new preparations  
known as benadryl and pyribenzamine.  
Of course all such preparations should be  
utilized under the direction of a  
physician.

## British Solons Seek

## U. S. Tycoons' Advice

By RAY TUCKER

WASHINGTON, July 23 — England's  
recent pro-Russian deals and her violent  
socialistic experiments at home and in  
her German zone have given deep con-  
cern to the Truman Administration, Con-  
gress and American bankers and industrial-  
ists. They have provoked  
skepticism as to whether  
the Atlee-Burn Government  
is with us in our  
present clash with  
Russia.

These fears have not  
been allayed by a flood  
of letters to the con-  
servative, British busi-  
ness men have been  
writing to federal offi-  
cials and to the heads  
of some of our greatest  
corporations, including  
automobile, steel, ship-  
ping and railroad.

Writing as one busi-  
ness man to another, the authors warn  
that the Labor government is weaken-  
ing England's domestic economy by radical  
innovations to such an extent that  
it cannot—or will not—join us in com-  
bating the expansion of Communism  
throughout the world.

ADVICE: The writers ask advice  
from American industrialists, politicians  
and publicists on methods that would help  
to drive the present government from  
office. The letters recall the vote at the  
last general election, pointing out that a  
shift of only 2,500,000 Liberals would be  
sufficient to overthrow Prime Minister  
Atlee.

The men mentioned as possible  
heads of a new ministry are Winston  
Churchill and Sir Anthony Eden, and the  
communications ask whether the  
U. S. would prefer them to the present  
rulers of Britain.

The correspondence, some of which  
the writer has seen, make unique political  
literature. If England has a Logan Act,  
it is probable that the writers would be  
subject to prosecution by the Crown.

In fact, they may be liable under the  
Defense of the Realm Act. It is as if  
C. E. Wilson of General Motors, Benjamin  
F. Fairless of U. S. Steel or Cyrus Eaton  
asked Englishmen for aid in defeating  
President Truman in 1948.

COMFORT: The Labor government,  
according to these warnings, is not the  
mid-trade-union regime that British  
and Americans expected it to be when it  
oustet Churchill on a wave of war wear-  
iness in the midst of the Potsdam Con-  
ference.

It has moved to nationalize bank-  
ing, transport, coal, steel and agri-  
culture far more radically than is  
generally known. Against the wishes  
and policy of the Truman Adminis-  
tration, it insists on pursuing the  
same socialistic program in its Ger-  
man zone, thereby giving comfort to  
the Russians in their attempt to  
convince the Germans that the free-  
enterprise system advocated by U. S.  
representatives is decadent.

London's reluctance to discuss  
methods for increasing production of  
Ruhr coal, Central Europe's key problem,  
derives from this complex. We think  
that more units of fuel can be produced  
under private ownership and management,  
whereas the British want to nationalize  
this industry.

WALLACE: British Laborites, who  
fought our original loan, mean to block  
acceptance of future advances in fear  
Moscow may regard the transaction as an  
unfriendly act. Ten Downing Street re-  
cently negotiated an important trade  
pact with Stalin, which will relieve Eng-  
land of complete dependence on the U. S.  
for grain and other food products.

The new Marshall plan for lift-  
ing the level of German industrial out-  
put has been opposed by Atlee and  
Bevin, not because they fear a Ger-  
man military resurgence, but because  
they think that Russia will be  
offended.

In short, as between siding with the  
United States or Moscow, England seems  
to have assumed a position alongside  
Henry A. Wallace, whose recent visit to  
that country was sponsored by the redder  
and more radical members of the Labor  
Party. In fact, he may be partially re-  
sponsible for the barely perceptible out-  
significant shift in the attitude of the  
British Labor Government.

REPUTATION: It is not generally  
realized, but President Truman has  
diminished his reputation of several key,  
Rooseveltian policies within the last ten  
days. Save for his pro-labor policy as  
embodied in his veto of the Hartley-  
Taft Act and his selection of labor  
sympathizers to administer the new law,  
he is no closer to his predecessor's philo-  
sophy than Senator Robert A. Taft of  
Ohio.

Secretary Marshall's recent  
speeches and pronouncements have  
ranged the U. S. against Russia as a  
political, diplomatic and economic  
enemy. There is no longer any pretense  
that the world's two greatest  
powers are friends. Co-operation with  
Moscow in post-war years was the key-  
stone of the Roosevelt foreign policy.

In his recent directive to Gen. Lucius  
D. Clay, our commander in Germany, Sec-  
retary Marshall scrapped the last vestige  
of the punitive Morgenthau program for  
cutting up the Reich into farm lands, a  
proposal which received Roosevelt-  
Churchill sanction at the Quebec Con-  
ference.

DREAM: In opposing tax reduction,  
and an increase in substance allowances  
for GIs in school or on-the-job training,  
President Truman has turned his back on  
FDR's spending complex. He has aban-  
doned the theory which lay behind WPA,  
PWA and AAA—namely, that pro-  
perty can be attained by an outpouring  
of government cash.

His new flood control program, how-  
ever, is the worst blow. Instead of spon-  
soring the Missouri Valley Authority on  
the pattern of TVA, which was FDR's  
great pride, Mr. Truman has proposed  
a program of piecemeal construction of  
protective dams, and turned the task over  
to the Army Engineers. This move has  
antagonized all the conservationists,  
planners, liberals and New Deal builders,  
who shared FDR's dream of strewing  
TVAs all across the country.

Readers' questions on national affairs  
are discussed and answered each Satur-  
day in this column. Readers are invited to  
send question direct to Ray Tucker,  
604 Hillcrest Pl., Chevy Chase, Md.

ADVICE: The writers ask advice  
from American industrialists, politicians  
and publicists on methods that would help  
to drive the present government from  
office. The letters recall the vote at the  
last general election, pointing out that a  
shift of only 2,500,000 Liberals would be  
sufficient to overthrow Prime Minister  
Atlee.

The men mentioned as possible  
heads of a new ministry are Winston  
Churchill and Sir Anthony Eden, and the  
communications ask whether the  
U. S. would prefer them to the present  
rulers of Britain.

The correspondence, some of which  
the writer has seen, make unique political  
literature. If England has a Logan Act,  
it is probable that the writers would be  
subject to prosecution by the Crown.

In fact, they may be liable under the  
Defense of the Realm Act. It is as if  
C. E. Wilson of General Motors, Benjamin  
F. Fairless of U. S. Steel or Cyrus Eaton  
asked Englishmen for aid in defeating  
President Truman in 1948.

COMFORT: The Labor government,  
according to these warnings, is not the  
mid-trade-union regime that British  
and Americans expected it to be when it  
oustet Churchill on a wave of war wear-  
iness in the midst of the Potsdam Con-  
ference.

It has moved to nationalize bank-  
ing, transport, coal, steel and agri-  
culture far more radically than is  
generally known. Against the wishes  
and policy of the Truman Adminis-  
tration, it insists on pursuing the  
same socialistic program in its Ger-  
man zone, thereby giving comfort to  
the Russians in their attempt to  
convince the Germans that the free-  
enterprise system advocated by U. S.  
representatives is decadent.

London's reluctance to discuss  
methods for increasing production of  
Ruhr coal, Central Europe's key problem,  
derives from this complex. We think  
that more units of fuel can be produced  
under private ownership and management,  
whereas the British want to nationalize  
this industry.

WALLACE: British Laborites, who  
fought our original loan, mean to block  
acceptance of future advances in fear  
Moscow may regard the transaction as an  
unfriendly act. Ten Downing Street re-  
cently negotiated an important trade  
pact with Stalin, which will relieve Eng-  
land of complete dependence on the U. S.  
for grain and other food products.

The new Marshall plan for lift-  
ing the level of German industrial out-  
put has been opposed by Atlee and  
Bevin, not because they fear a Ger-  
man military resurgence, but because  
they think that Russia will be  
offended.

In short, as between siding with the  
United States or Moscow, England seems  
to have assumed a position alongside

# Royersford - Spring City

**HARLEY B. BRANDRETH, Rep.**  
Phone 155. Third Avenue and Main Street, Royersford

## Unidentified Man Falls Under Truck; Condition Serious

Topping from a cigar store bench at Main and Bridge streets, Spring City, under the wheels of a large tractor truck loaded with steel, an unidentified man in his late 40's was critically injured at 10 o'clock today at the knee this morning. If he lives till then, according to nurses at Phoenixville hospital, where he was taken.

Nurses say that he mumbled a name that sounded like "Nolan" before lapsing into unconsciousness. The only clue found on his person was a handkerchief bearing the numerals 217 and the name John Myers.

A Jones Motor company truck driven by Harry Buzzard, Spring City, came over a cement driveway from the Keystone Drawn Steel company plant. The cab passed the bench, and then the man fell under the front wheels of the trailer, which passed over his legs.

Seeing the man lying half-crushed beneath the wheels, Mrs. Margaret Miles and Mrs. Wilford Miller, Spring City, signaled from the opposite side of Bridge street to Buzzard, who maneuvered the wheels clear of the body.

Blood was spurting on the driveway by then and the victim was screaming from pain. Ivan Coulton, who was walking down Main street, rushed to the scene and with other passers-by gave what assistance he could. A few minutes later, Dr. Joseph G. Ross came up and then hurried to his nearby office, returning with a hypodermic needle which he administered to the still-conscious man.

An ambulance of the West End Fire company, Phoenixville, took the victim to Phoenixville hospital. Police Chief John Hanebury made an on-the-spot investigation before the large puddles of blood were wiped away, and then went to the hospital to seek further identification of the man.

## Model Ambulance Tours Boroughs; Purchase Possible

A 1948 model ambulance traveled Twin-Borough streets on demonstration tours after a thorough public inspection last night and met the approval of all who saw the vehicle.

The conveyance, a specially built body mounted on a popular make chassis, powered by a straight-eight cylinder 165 horse power motor, was demonstrated by C. W. Geissel and Robert Berryman, representatives of a Philadelphia firm.

For several hours, officials of the two towns and several hundred other citizens viewed the car in front of Friendship firehouse, where all details were explained.

Painted in a beautiful shade of green, the body contains space for two litters and can be converted to carry two more patients, besides all necessary equipment. It is equipped with comfort-air ventilation, one-way mirror glass in the rear quarter openings, magic-trol panels in the side windows, Pullman type window shades, a pre-st-o-justment power operated front seat with a splint compartment behind it, and conveniently located first-aid, linen, tool and spare tire compartments.

The committee of Friendship Fire company, which was named to investigate the possibility of securing an ambulance at the monthly meeting, July 1, is composed of Granville Rambo, Paul Iselt and Fred Pennypacker. This committee will report back at the August meeting, Aug. 5. In the interim it is probable that one or two more demonstrator-ambulances will be brought here for inspection.

## FESTIVAL TOMORROW

Capt. Harris Buckwalter American Legion post, Royersford, will hold a festival tomorrow night and Saturday night on the grounds of Friendship Fire company, Green street. The committee has arranged music, plenty of amusements and entertainment and refreshments.

## 100F Lodgemen Plan To Visit Paoli Tonight

Vincent lodge 762 100F, Spring City, will meet tonight at 8 o'clock in Odd fellows temple. The business will include acceptance of applications for membership.

A Third district association visitation has been planned to Paoli tonight, for lodgemen of the various lodges in the district. Wednesday night, July 30, a district visitation will be made to Phoenix lodge 212, Phoenixville. Thursday night, July 31, there will be a visitation to Vincent lodge.

Those planning to go to Paoli tonight have been requested to be at the lodge hall at 7:45 o'clock.

The local lodge is planning for the annual picnic at Bonnie Brae park Wednesday night, Aug. 13. An invitation has been received to attend the annual picnic of Paoli lodge 250, to be held at Valley Forge, at the picnic grove, Fort Huntingdon.

## DEATHS - FUNERALS

Funeral services for **MRS. MARY L. SHREEDER**, widow of Franklin L. Shreeder, 20 NORTH MAIN STREET, SPRING CITY, were conducted in a funeral home at 331 New street at 2 o'clock yesterday by the Rev. Michael Schmidt, pastor of St. Vincent Reformed church. Burial was made in St. Vincent cemetery. Bearers were Allan Freese, Ralph Quigg, Lawrence Wiand, Harrison Shaner, James Shreeder and Henry Gooding.

## Model Ambulance Tours Boroughs; Purchase Possible

A 1948 model ambulance traveled Twin-Borough streets on demonstration tours after a thorough public inspection last night and met the approval of all who saw the vehicle.

The conveyance, a specially built body mounted on a popular make chassis, powered by a straight-eight cylinder 165 horse power motor, was demonstrated by C. W. Geissel and Robert Berryman, representatives of a Philadelphia firm.

For several hours, officials of the two towns and several hundred other citizens viewed the car in front of Friendship firehouse, where all details were explained.

Painted in a beautiful shade of green, the body contains space for two litters and can be converted to carry two more patients, besides all necessary equipment. It is equipped with comfort-air ventilation, one-way mirror glass in the rear quarter openings, magic-trol panels in the side windows, Pullman type window shades, a pre-st-o-justment power operated front seat with a splint compartment behind it, and conveniently located first-aid, linen, tool and spare tire compartments.

The committee of Friendship Fire company, which was named to investigate the possibility of securing an ambulance at the monthly meeting, July 1, is composed of Granville Rambo, Paul Iselt and Fred Pennypacker. This committee will report back at the August meeting, Aug. 5. In the interim it is probable that one or two more demonstrator-ambulances will be brought here for inspection.

## CELEBRATES BIRTHDAY

## BIRTH ANNOUNCED

Mr. and Mrs. Charles Bieber, Spring City RD. announced the birth of a son, Dale Ernest, born in Phoenixville hospital. The mother was Mrs. Mary Elizabeth High.

## Two-fifths of Ceylon's great tea crop is shipped abroad, mostly to London, and the remainder is disposed of domestically.

## U. S. Drops Poland From Cut in Relief; Food Outlook Cited

WASHINGTON, July 23 (P)—The United States excluded Poland today from a prospective \$15,000,000 share in American foreign relief and there were indications that Hungary also would be ruled out because of improved crop prospects in Soviet-dominated eastern Europe.

The State department announced the action on Poland, publishing an official report saying the country has sufficient food in sight for minimum needs until at least the end of this year.

Officials said at the same time that estimates of current crop yields in Hungary were mounting.

Secretary of State Marshall said in response to a news conference question that the survey in Poland, made by Col. K. L. Harrison, of the Agriculture department, was the basis for the decision to cut Poland out of the program for which the

## Home the past week voted a reduced appropriation of \$332,000,000.

He said Poland's boycott of the Paris conference of the Marshall plan for European recovery was not the reason for the decision.

In reducing the appropriation from the \$350,000,000 asked by the State department, the House anticipated that both Poland and Hungary would be stricken from the original list of seven countries authorized to share in the relief. Hungary's tentative allotment was \$3,000,000.

The Senate appropriations committee approved the House cut today.

Actual relief shipments meanwhile have started to Austria, Italy, Greece, and Trieste. Negotiations have started for a relief agreement with China.

Colonel Harrison, special assistant to Secretary of Agriculture Anderson, made the survey of Poland's needs at Marshall's request. He reported that the industrial sector of Silesia was booming. Polish food production was on the increase and some exports have started.

Polish officials interviewed were

# Boyertown

MRS. LEON R. MEIST, Repr.      HARRY L. GILBERT, News  
Phone 184      Phone 126-R  
Philadelphia Ave. and Washington St.

## DEATHS - FUNERALS

**Funeral services for KENTON M. BOYER, of 104 NORTH READING AVENUE, BOYERTOWN, were held yesterday at 2 p. m. from a funeral home at 124 West Philadelphia avenue, Boyertown.**

The Rev. David F. Longacre, pastor of St. John's Evangelical Lutheran church, officiated. Burial was made in Fairview cemetery. Bearers were Charles Weller, Art Houch, Frank Frey, Frank Auer, Winfield Weidner, and William Schultz, all of the Friendship Hook and Ladder company, Boyertown.

## Seven Youths Begin Lifesaving Course

Seven Boyertown youths have reported for American Red Cross junior lifesaving classes at the American Legion swimming pool.

They are Thomas Burns, John Breidenbach, George Schwenk, Russell Miller, Richard Rhoads, Henry Fulmer and Foster Del Gross. Walter Risley, basketball coach at State Teachers college, Kutztown, is instructor for the course.

Yesterday's class period dealt with fundamentals of the back and the side stroke. Risley also gave a talk on water safety and first aid.

The class will meet today and tomorrow and Monday through Friday of next week. Philip West, junior Red Cross delegate in Boyertown and vicinity, said last night that additional registrants can still be accepted for the course.

West also announced that a senior life saving course will be given in Boyertown at the Legion pool starting on Aug. 12.

## 200 Dolls Exhibited As Youths Display Prize Collections

Dolls 41 inches long and one inch long; dolls 85 years old; dolls from Mexico, France, Italy, Japan; fat dolls, skinny dolls; funny dolls; bridal dolls—all kinds of dolls gathered yesterday at Washington school playground for the annual doll show sponsored by the playground workers employed by Boyertown School district.

An even dozen walked away with prizes out of a field of about 75 girls and boys who exhibited close to 200 dolls. The event was witnessed by more than 150 spectators, including the contestants.

Judges were forced to resort to the yardstick in choosing the largest doll. Then—to their dismay—they found dolls exhibited by Anna Sawyer and Frances A. Henry each to measure exactly 41 inches. A tie was declared and duplicate prizes presented.

Smallest doll shown was a plaster baby owned by Carolyn Sell and measuring just slightly over one inch in height. Janet Nest's 85-year-old doll was awarded a prize as the oldest one there.

Best-dressed dolls were owned by Linette and Gwendolyn Ott. The dolls were made up yesterday as a skater and a skier. The girls exhibited complete wardrobes for each doll—complete from underthings to sports and casual wear.

Linda A. Stauffer was awarded a prize for the largest collection of dolls. She exhibited 21 dolls yesterday. A "Dopey" doll, owned by Dolores A. Ashmeier, received the prize as the most comical, while the prize for the prettiest foreign doll went to Jane Yeager, who exhibited one from Mexico.

A Japanese warlord doll brought from Japan by her father won Sandra Briel's prize in the most unusual doll class, while one owned by Janet E. Geiger was judged most lifelike and was presented with an award. Barbara Prain owned the prettiest bridal doll. The winner was dressed in a white bridal dress with a train of lace. She carried a bouquet of sweet peas.

Judges for the event were Lois Nuss, Mrs. Marcia Z. Krysa, and Harry L. Gilbert. In

## Thomas Estate Valued at \$15,000

Wayne S. Thomas, who before his death resided at 30 East Third street, left an estate valued at \$10,000 in personal property and \$5000 in real estate, the latter being two houses in Boyertown. Letters were issued to William H. Reifsnider Jr., executor. The deceased willed \$1000 to Clarence H. Didden.

The residue of the estate is placed in trust and the income paid to the sister, Dorothy, or person who takes care of his father, William Thomas, during his lifetime. At the time of death of the father, two sisters, Rebecca and Dorothy, are to divide furniture, household goods, and jewelry.

After a bequest of \$500 to the sister, Dorothy Fritz, the residue is divided in equal shares among the following: Agnes Thomas, sister-in-law; Charles S. and Wilson S. Thomas, brothers; Margaret Haas, a niece; Loretta Fritz, Rebecca Rose, and Dorothy Fritz, and one share between Linwood and Gerald Gerhart, children of a deceased sister, Olive.

A codicil evokes the share of his brother, Ralph, "not for any loss of affection, as I hold him in great esteem, but because he is so well taken care of financially."

## Class of '32 Plans Fifteenth Reunion

Announcement of the fifteenth anniversary reunion of the Class of 1932 of Boyertown High school will be mailed to members next week.

Arrangements for the affair are nearing completion and class officers are expecting a record turnout, judging from informal response of class members interviewed. The event will be held in Boyertown Inn on Saturday, Aug. 23, at 7 p. m. with a dinner and an informal program afterward. Husbands and wives of class members are being invited.

A committee has completed a roster of all members' addresses and formulated plans for the event at two meetings held recently. Committee members include Mrs. Eliza S. Harner, Mrs. Dorothy S. Yohn, Eleanor M. Dries, Mrs. Kathryn E. Wade, Mrs. Mary L. Sands and Albert E. Mercer.

## Gilbertsville Woman Remains in Hospital

Mrs. Frank Zern, of Gilbertsville, is still confined to Reading hospital where she was taken in Boyertown Community ambulance on July 14 following an illness which developed while she and her husband were returning from a trip to the Midwest. Mr. Zern, who was also ill following her return, has completely recovered.

## Pet Show Listed For Playground

Because of foresight on the part of Boyertown School district and Boyertown YMCA Movement, local youngsters are having a busy Summer crammed full of instructive, wholesome recreation features.

Yesterday it was the doll show at Washington school playground, which is operated by the school district; the past week, the YMCA's industrial tours; early in the month, the Y's learn-to-swim campaign, and daily during the Summer, playground activities at both the Washington and the high school fields.

A new activity was announced yesterday by Warren O. Fry, supervisor of playground activities here. It's a pet show and it will be held on Washington playground on Wednesday, Aug. 6, at 2 p. m. It will be another special feature sponsored by the Boyertown playgrounds.

Fry, in making the announcement yesterday at the doll show, pointed out that only bona fide pets can be entered for prizes in various categories which will be announced later. As an illustration of what he meant, he cited the case of the enterprising youngster who brought a fly in a bottle to a pet show. "Hardly a real pet!" surmised Fry.

The baseball school, run daily in the afternoon at the high school athletic field, is proving popular. Its members expect to go to Philadelphia soon to see the Philadelphia Athletics.

## Boy's Eye Condition Reported Satisfactory

The condition of the eye of Jacques Kline Jr., who was injured when struck by an object which broke the window of the railroad coach in which he was riding the past week, was reported as satisfactory last night by his father, Jacques B. Kline Sr.

Kline said the wound, which is across the cornea, is healing nicely. He will be examined later this week by an eye doctor and it will then be known whether the accident will permanently impair his vision.

The seven-year-old lad is at Wildwood, N. J. where he is visiting with relatives.

## John Landis Leaves \$6800 to Relatives

John S. Landis, Boyertown, left an estate valued at \$1300 in personal property and \$5500 in real estate, the latter being a house at 214 South Washington street and a building lot in Colebrookdale township.

The deceased directed that the estate be converted into cash and distributed equally among the following: Remedia Nagle, Paul Landis, Herman Landis, Mamie Landis, Earl Landis, Naomi Landis, Gordon Landis and Florence Gottshall and sons, Richard and Robert. Executors are Paul W. and Herman D. Landis.

Western larch trees are commonly known as tamarack.

Mr. and Mrs. Wesley Zollers, of Trappe, were Sunday evening visitors at the home of Mr. and Mrs. Arthur Trumbore.

Franklin Posbenner is spending several days with relatives here before leaving for Naval Reserve camp.

### 138,498 in County Eligible to Vote in September Election

By Staff Correspondent

NORRISTOWN, July 23—There are 138,498 persons in Montgomery county who will be eligible for ballots at the primary election on Tuesday, Sept. 9, the Montgomery County Registration commission announced today.

This total is approximately 10,000 less than the number of voters who were entitled to vote at the general elections last year when 148,574 were listed on the registration books.

Chief Clerk Kenneth Hallman, of the Registration commission, emphasized that the present figures are unofficial and that a district-by-district count of the registrations will be made in August.

However, the Republicans main-

tained their four-to-one superiority over the Democrats in the registration with the close of the registration period the past Saturday.

Total Republicans now listed are 110,693 as compared to 25,205 Democrats, 2577 non-partisans and 73 miscellaneous listings.

Last September there were 116,694 Republicans, 28,891 Democrats, 2509 non-partisans and 80 miscellaneous party affiliations carried on the county books.

Between Sept. 14, 1946 and the start of the registration period this year, 16,115 voters were purged from the rolls for non-voting during the required period, deaths, removals from the districts and various other reasons.

The purge figures showed the removal of 11,553 Republicans, 4112 Democrats, 442 non-partisans and 221 miscellaneous while the new registrations this year numbered 6211 Republicans, 631 Democrats, 104 non-partisans and one miscellaneous, for a total of 7167.

## Chamber's Outing Attracts 150 to Brookside Club

Holding their first annual outing since 1942, about 150 members of the Pottstown Chamber of Commerce gathered in a session of fun and fellowship at the Brookside country club yesterday afternoon and evening.

The interest of those attending was held from 1 p. m. on by the staging of various competitive sports events for which cash-merchandise prizes were awarded.

In golf, a kicker's handicap initiated the day's activities early in the afternoon when participants attempted low score after picking their own handicaps. With this system, poor golfers had as much opportunity to win as the experts.

Emil Schultz, with a score of 70, won first prize in the handicap, while Maryland A. McHenry and Robert Page were runners-up for second place with scores of 77 each.

A contest in accuracy on pin shots was won by Ralph Thomas and Richard Page. Best scorer in golf for the afternoon, although winning no prize, was Thomas A. McCashin 3d, with a 79.

Toward evening, 48 players were engaged in quail and horseshoe games. By dusk, final eliminations produced Samuel Brown and Henry Schneider as the winning horseshoe team, and Lewis A. Pillsbury and Henry Mest as quail champions. These contests were in charge of Harry W. Burdian.

Throughout the day, members indulged in swimming and tennis, according to Chamber Secretary Ralph H. Spare, who mentioned that the group has been holding outings since the chamber formed in 1924. Entertainment was provided by Dutch singers and musicians from Allentown from 8 until 8 o'clock.

Thomas F. Storm headed an outing committee of 18 persons in arranging the affair.

## Eagles Aerie to Be Host At Employees' Picnic

Pottstown aerie, Fraternal Order of Eagles, will be host Sunday to employees of the auditorium and kitchen of the lodge home. A picnic event will be held at the Summer home of S. Paul Seeders at Forgeville, Berks county. George Keller is chairman of the committee on arrangements.

## Erie Officials Lock Homes as Precaution Against Disease; Flood Damage Heavy

ERIE, July 23 (AP)—Approximately 100 Erie residents evacuated from their homes during a record-breaking storm which deluged the city with more than nine inches of rain, found their homes padlocked today by order of the city health officer.

Dr. James P. Smith, health officer, said the move was taken to prevent disease. He declared occupants could move back in as soon as the premises were cleaned and pronounced sanitary.

The families made homeless yesterday afternoon by the heavy rain continued to starve with friends, relatives or in the hastily provided temporary quarters set up in the city hall annex.

City officials estimated damage at more than \$1,000,000 from

water which ran two and three feet deep in scores of streets, flooded uncounted basements, paralyzed traffic and disrupted telephone service in some areas.

City employees were busily passing out disinfectants and lime to merchants and others ready to start the big clean-up job. Firemen were available to hose out flood debris as the city threw its full resources behind the flood's victims.

No one was killed during the high water period but an aged man and woman were hospitalized after firemen pulled them out of an auto submerged under five feet of water.

City officials said the flood's most serious damage was done to store merchandise, heating plants, air conditioning systems and equipment stored in factories.

Dealers Compete  
As Tobacco Crop  
Is Placed on Block

VALDOSTA, Ga., July 23 (AP)—High hopes and a carnival spirit filled dusty tobacco towns in the bright leaf belt today, as growers, buyers and auctioneers converged for tomorrow's opening of the selling season.

First baskets of the golden, cigarette-type tobacco—called flue-cured leaf by the industry—go on sale in 18 Georgia and three north Florida markets with traditional, singsong gibberish of the auctioneers. Total sales eventually may reach \$60,000,000.

Sunburned growers, who have harvested and cured their crops and carted it to tin-roofed warehouses, waited anxiously the first bids tomorrow morning as an indication of this year's income. Warehouse speculation, exchanged on street corners and hotel lobbies, was that "good tobacco will sell good; common tobacco will sell poor."

Prices the past year averaged 43.20 cents a pound, and tobacco experts said it was likely that the 1947 crop would bring a higher average due to better quality. There was speculation, also, that prices would be higher as result of support of Government loans through the Flue Cured Tobacco Co-operative Stabilization corporation.

Loans up to 90 percent of parity have been announced on a scale varying according to grade, and growers dissatisfied with bids on his crop may reject them and set his leaf aside at loan up to 64 cents a pound for best-grade choice lemon wrappers. The past year the highest loan value was 53 cents. Grades are determined by inspectors for the U. S. Department of Agriculture, with loans expected to average 40 cents.

Some anxiety was expressed among warehousemen over the policy of the British government to limit purchases of British companies. The British usually buy a considerable amount of medium and lower grade tobacco. Good demand was forecast, however, by domestic cigarette manufacturers.

The Federal crop reporting board, as of July 1, estimated production at 142,200,000 pounds, an increase of 13,000,000 pounds over 1946 in the Georgia-Florida belt.

Total production of cigarette-type leaf in all belts was estimated at 1,278,065,000 pounds, or 74,000,000 less than 1946.

The 1946 crop in the Georgia-Florida belt brought \$58,737,144.

Two Area Men Enlist  
For Service in Japan

Arthur L. Moses, Pottstown RD 2, has enlisted with the Army Corps of Engineers, and Thomas R. Woodward, Boyertown RD 1, has enlisted for service with the 25th Infantry division, stationed in southern Japan.

The enlistments were announced yesterday by the Second Army recruiting sub-station at the Pottstown postoffice building.

New Members to Be Feled  
By Rotary Club Tonight

The Pottstown Rotary club will celebrate "New Member Night" in the Elks' home at 6.30 o'clock tonight when the new members taken into the club during the past year take charge of the meeting.

Highlighting the meeting will be two classification talks. One will be given by Edward Y. Good, and the other by Ethelbert Bernard.

Motorist Is Charged  
With Reckless Driving

Robert B. Bortner, Phoenixville RD 1, was arrested for reckless driving at 10:45 o'clock Tuesday night when the automobile he was operating nearly upset as he halted for a traffic light at High and Washington streets.

Traveling east on High street, and racing with another car, Bortner was apprehended by Patrolman Joseph Thees, who made the arrest.

"UNBLOCK"  
your DIGESTIVE TRACT

And Stop Dosing Your Stomach With Soda and Alkalizers

Don't expect to get real relief from band-aids, antacids, gas and bad breath by taking soda and other alkalizers if the true cause of your trouble is constipation.

In this case, your real trouble is not in the stomach at all. But in the intestinal tract where 80% of your food is digested. And when the lower part gets blocked food may fail to digest properly.

What you want for real relief is something to "unblock" your lower intestinal tract. Something to clean it out effectively—help Nature get back on track.

Get Laxer's Salt now. Take as directed. You will feel relief and "unblock" your digestive tract. This permits all 8 of Nature's own digestive juices to mix better with your food. You get genuine relief from indigestion, gas and "bad" breath. You get your intestinal tract for real relief from indigestion.

Sailor on Trial

Once hailed as a war hero, Chief Signalman Harold E. Hirschberg, Brooklyn, N. Y., is shown as he went on trial before a general court-martial at the New York Navy Yard on charges of mistreating fellow American prisoners of war in a Jap camp. Specific charges against Hirschberg, who enlisted in the Navy in September, 1936, and was sent overseas in April, 1939, were not revealed.

Custer Is Vice President  
Of County Park Board

Charles J. Custer, Highland road and Wilson avenue, was elected vice president of the Montgomery County Park board when it reorganized at the semi-annual meeting held yesterday at Upper Perkiomen park, Green Lane.

Thomas W. Sears, Lower Merion, and Henry P. Frie, Plymouth township, were re-elected president and secretary, respectively.

Five hundred feet of bathing beach have been added during the past year, and 4000 dogwood trees replanted, it was reported to the meeting. Plans were completed for restoration of the headquarters building at Lorimer park, Abington township. Work is expected to start soon.

Color films of Upper Perkiomen park were shown. The board will meet again in October at Lorimer park.

## SOVIET DECLINES BID TO ATTEND TREATY PARLEY

Reds Claim Ministers Of Big 4 Should Speed Terms of Jap Pact

LONDON, July 23 (AP)—Soviet Russia tonight rejected the American invitation to an 11-nation preliminary conference on peace for Japan, proposing instead the speedy convocation of a four-power foreign ministers council to take up the task.

Replying to a United States invitation of July 11 to meet with other powers in Washington Aug. 19, the Soviet government declared in a statement broadcast by the Moscow radio that the United States had taken "unilateral action" in proposing the conference without previous four-power consultation and added:

"The Soviet government cannot agree that the question of the calling of a conference for preparation of a peace treaty with Japan be decided by the Government of the United States in a unilateral manner, without preliminary consultation with the governments of the Soviet Union, China and Great Britain."

The statement continued, "The council of foreign ministers, formed on the initiative of the United States of America, was created precisely for preliminary work on the preparation of peace treaties and cannot, therefore, be ignored."

"As to the date for the convocation of the council of foreign ministers to consider the question of a peace treaty with Japan, the Soviet government suggests that the Soviet, Chinese and British ambassadors in Washington, together with a representative of the United States, decide the earliest moment acceptable to all the interested governments, bearing in mind the desire to speed up the convocation of the council," the statement concluded.

Moscow said the Moscow agreement of 1945 recognized that the four powers had "particular interests" regarding the post-war situation of Japan.

The United States proposal for an 11-nation conference of Britain, the U. S. S. R., China, France, the Netherlands, Canada, Australia, New Zealand, India, the Philippine Commonwealth and the United States, all members of the Far Eastern commission, was interpreted at the time as having been designed precisely to discard the foreign ministers council in making the peace for Japan. Long delays have been encountered in the council in writing the peace for Europe.

At the Moscow meeting of Britain, the U. S. and the U. S. S. R. in December, 1945, it was agreed, with the later concurrence of China, that the Far Eastern commission could "take action by less than unanimous vote" provided the majority included Russia, the U. S., Britain and China.

## Stassen Sees Bitter Rivalry On Basic Ideas

DES MOINES, July 23 (AP)—Refusal of Russia and eight other European countries to join the Paris conference on the Marshall plan presages "the greatest basic competition in all history," former Governor Harold E. Stassen of Minnesota said tonight.

"We are to be engaged in a continuing major competition and clash of economic systems and ideologies," Stassen said in an address to the opening session of the 21st International Sunday School convention.

Stassen, an announced candidate for the Republican presidential nomination, is president of the International Council of Religious Education which is sponsoring the convention attended by more than 5000 persons representing 40 denominations, 48 states, and eight foreign lands.

Describing the clash between the United States and the 16 European nations co-operating on the Marshall plan with the nine European nations, including Russia, which declined to join, Stassen said:

"It is a competition between the ideology of materialism sponsored by Communists, which denies the fatherhood of God, deprecates the worth of the individual human being, and worships the things of the earth controlled by rulers of men, as opposed to an ideology based on the fundamental concepts of our religious beliefs, humbly recognizing the fatherhood of God, emphasizing the worth and dignity of the individual human being, safeguarding individual freedom, and teaching service and compassion and mercy."

## Door to Holy Land Shut in Their Faces

British soldiers in Haifa, Palestine, lead away a group of children who, with their parents, were taken off the illegal immigrant ship Exodus of 1947. The aged Jew (extreme left) lends marked contrast to the young children. The ship, jammed with 4500 homeless Jews seeking a new life in Palestine, was seized by British naval units after a battle off-shore. They will be deported back to France.

## Veto Issue Unsolved As U. S. and Russia Remain Deadlocked

LAKE SUCCESS, July 23 (AP)—United Nations atomic delegates shelved the vital issue of the veto indefinitely today after the United States and Soviet Russia reaffirmed their sharply-opposed positions.

Frederick H. Osborn, United States deputy, told the working committee of the United Nations atomic energy commission that this country stands firmly behind the principle of no veto on atomic punishments and "will not be a party to any change."

Andrei A. Gromyko, Soviet Deputy Foreign Minister, declared that Russia still is behind the veto in the Security Council; that any attempts to change the present set-up were "doomed to failure."

Other results of the session one of the most important for the working committee in months, were: 1. Russia lost a stubborn battle to put the commission on record for an international convention banning the atomic bomb immediately. The majority agreed without a vote that it was more important to work on a convention setting up controls than to give priority to one convention banning the bomb.

2. The commission completed discussion of 12 Soviet proposals without any major gain for Russia. Gromyko thus failed in his effort to substitute the Russian plan for the American control plan favored by the commission majority.

On the veto, Gromyko said the delegates had agreed that there would be no veto on the day-to-day activities of a proposed international control organization. Then he said the unanimity principle in the Security Council, by which any of the five great powers can kill an important matter by a negative vote, must not be altered.

One feature of the Soviet plan calls for setting up the control agency to operate within the framework of the Security Council, where the veto could apply on important and final decisions. The U. S. contends the veto must not apply on any atomic questions.

Osborn in a short statement said this country held fast to the principle voiced by Bernard M. Baruch on June 14, 1946 and later endorsed by 10 members of the 12-nation committee, that there shall not be any legal right by veto or otherwise whereby a willful violator of an atomic treaty shall be protected from the consequences of such violations.

## Union Trio Prefers Silence To Query on Red Affiliation

WASHINGTON, July 23 (AP)—Three officers of a CIO tobacco union in North Carolina refused today to tell a House committee whether they are Communists, while a Wisconsin CIO strike leader was indicted on charges of falsely swearing that he was not one.

The three, Edwin K. McGee, Robert C. Black and W. Clark Sheppard, told the Un-American activities committee that they based their refusal on the ground that to answer "may incriminate" them.

Previous witnesses had said the men were Communists and that the local involved, at Winston-Salem, N. C., was Communist-controlled. McGee is an international representative of the CIO Food, Tobacco and Agricultural Workers assigned to the local. Black and Sheppard are co-chairmen of the local.

In another major Washington development touching on Communism, a House judiciary subcommittee approved a bill to grant American citizenship to Victor Kravchenko, former Soviet official who said he fears for his life because of his denunciation of Communism.

The Wisconsin man indicted here is Harold Christoffel.

Christoffel's perjury indictment was brought by a Federal grand jury at the request of the Justice department.

Christoffel was president of Local 248 of the United Auto Workers in 1941 when the union called a long strike against the Allis-Chalmers company of Milwaukee, makers of farm machinery, then with defense contracts.

He appeared before the committee the past March, in its study of whether subversive influences were in the strike. He said he was not a Communist and that it would have been a betrayal of the workers and the country had the local president called a strike on Communist orders.

The grand jury, however, charged that he "was then a member of the Communist party and had been such a member for several years thereto and had worked with the Communist party and with the Communist Political Association."

At Milwaukee today, Christoffel surrendered to U. S. marshals after issuing a statement saying his indictment was part of a plan to break the labor movement.

## Sabotage Feared as Blast In Berlin Takes 8 Lives

BERLIN, July 23 (AP)—A mysterious explosion wrecked a large part of German police headquarters in the Russian sector of Berlin today, killing eight persons and injuring nine, and raising the possibility that a sabotage ring was in operation.

The American-licensed newspaper, Der Abend, said a suitcase found in the ruins "leads to the conclusion that a bomb was smuggled into the building" and declared the blast "presumably was the act of saboteurs."

The explosion, however, occurred in a wing of the building that houses a special police squad charged with the demolition of abandoned munitions and dangerously weakened structures, so the possibility remained that the blast was caused by the accidental detonation of explosives.

A British statement said investigation so far had established that the explosion occurred shortly after Walter Bunde, head of the Berlin police bomb disposal section, and three civilian workers had taken two large boxes into the building. Guards were told the boxes contained teller mines which were to be destroyed.

Bunde was killed when one wing of the five-story building facing a courtyard was demolished.

Russian authorities would not comment, and police said they were still investigating.

The dead included four German policemen and four workmen. Together with the nine injured this was the highest toll taken in a series of three explosions in the Russian sector of Berlin in little over a year.

The past September an explosion in the central German administration building for the Soviet zone in Berlin killed an interpreter. A year ago the past March a similar blast damaged German police headquarters in Alexanderplatz in the Soviet sector and caused two deaths.

Unconfirmed reports at the time said the administration building blast was from a bomb lowered into the building. Police said that the Alexanderplatz blast was caused by accidental discharge of old munitions in the courtyard.

## Approved

The Senate last night on- firmed Charles E. Bohlen (above), of Massachusetts, as counselor of the Department of State. Bohlen, a career officer in the foreign service, is the State department's Russian specialist. He succeeds Benjamin V. Cohen, who resigned.

## Explosion Sinks Ship In Haifa Harbor

JERUSALEM, July 23 (AP)—The former liberty ship Empire Lifeguard was sunk in Haifa harbor by an internal explosion today while discharging legal Jewish immigrants from Cyprus. It apparently was a blow of revenge for the ship's part in deportations of would-be immigrants.

While divers installed pumps and salvage crews went to work with hopes of raising her, Jewish sources voiced fears the British military may crack down harder on all Jews as a result of the new terror offensive which in the past week has taken a toll of eight killed and more than 60 wounded.

Jewish leaders recalled that a little over a year ago, on June 29, the army suddenly occupied Jewish institutions and rounded up a number of Jewish's most prominent leaders here after several weeks of violence flaring from the underground.

The Empire Lifeguard, one of four ships used to haul would-be immigrants from Palestine to Cyprus when their ships are intercepted by the British navy, went down when a time bomb ripped a hole three by six feet in her bottom. Since the bomb was placed far below the waterline, the explosion was muffled, resembling the depth charges which are intermittently dropped in the harbor to discourage attacks by

## Rail Union Leader Passes Suddenly

SAN FRANCISCO, July 23 (AP)—P. O. Peterson, general chairman of the Brotherhood of Locomotive Engineers, dropped dead today after talking with the presidential railway strike board at the Palace hotel.

Peterson was talking about the recent strike of Southern Pacific engineers. He had spoken some 10 minutes when he suddenly slumped to the floor.

The board had just begun hearing discussions of the many points unsettled by the engineers' strike.

Several points of disagreement had been settled during the short-lived strike, and the board named by President Truman had taken up the many other items.

Peterson, long the chairman of the brotherhood, resided at San Marco Hall.

"frogmen" Consequently, the first alarm was not given until the ship began to sink.

## Former Resident Here Married In Searles Church

Before members of the immediate families and close relatives, Mrs. Estella Gabel Dunford, daughter of Mrs. C. Henry Gabel, and the late Mr. C. Henry Gabel, 117 North Franklin street, became the bride of Mr. Thomas Frederick Gaskin, Allentown, yesterday afternoon at 3 o'clock in Searles Memorial Methodist church.

The ceremony was performed by the Rev. James D. Motchett and the bride wore a navy blue suit with a navy and white straw hat and a corsage of gardenias.

The bride was graduated from Pottstown Hospital School of Nursing and is an anesthetist at Ochsner Hill hospital, Philadelphia. Mr. Gaskin is employed by Bethlehem Steel corporation, Bethlehem.

Following a honeymoon trip the couple will reside in Allentown.

## YOUR BIRTHDAY ANNIVERSARIES

### TODAY'S HOROSCOPE

YOU DO everything with intensity. You are emotional, quick-tempered and positive in your ideas. Practice self-control. You are a fond parent, kind and sympathetic, and love your family.

### Today

Mr. Lero, S. Oelsenlager, Salford.

Mrs. Charles W. Moyer, Salford.

Mr. Robert Franklin Snell, son of Mr. and Mrs. Elmer Snell, Pottstown RD 4, aged 13 years.

Mrs. Wilson Levensgood, 50 Warwick settlement.

Mrs. Sarah Snaffer, 58 South Adams street.

Thelma Banks, daughter of Mr. and Mrs. Clifford Banks, Hilldale.

John Sechrist, son of Mr. and Mrs. Joan Sechrist, Hilldale.

Sylvia Clark, daughter of Mr. and Mrs. Sylvester Clark, Pottstown RD 4.

Barbara Shellenberger, daughter of Mr. and Mrs. Lloyd Shellenberger, Pottstown RD 4.

Mrs. Daisy Brown, Pine Forge.

Mrs. Evelyn Roberts, Limerick.

Robert Pennington, 1068 South street.

## Auxiliary, Children Stage Sanatoga Picnic

Last night the Ladies auxiliary of the Sanatoga Fire company held a picnic at the home of Mrs. O. C. Beacraft, Sanatoga.

Mrs. Sara Smith, president, was in charge of the games for the adults. Prizes were won by Mrs. Ellen Skean, Mrs. Lizzie Rhoads, Mrs. Lillian Buchert, Mrs. Elsie Shaner, Mrs. John Moore, and Mrs. Sidney Graham.

Games were won by the children and prizes were awarded to Tommy Troutman, Alma and Jimmy Miller, Barbara Buchert and Jimmy Keim. Miss Suzanne Seaman was in charge.

The members enjoyed their box lunch on the lawn.

Carryover of walnut supplies in the Spring of 1941 is estimated at about three times as large as usual—nearly 26 million pounds.

## CLUB NEWS

## Princess Elizabeth's October Wedding To Be Lavish Affair

LONDON, July 23 (AP)—Pealing bells, flowing champagne and public rejoicing appeared likely tonight to herald the wedding of Princess Elizabeth and Lt. Philip Mountbatten, despite an uncertainty of postponement against a lavish pageantry in a time of national shortages.

A high government official said the ceremony definitely would take place in Westminster Abbey and that the great day in the princess's life, probably in October, "certainly won't be on an austere lines."

The decision against a small, semi-private ceremony fitted public sentiment as it has been mirrored in letters to the editors of London newspapers and statements of political figures.

Readers of one newspaper, the Daily Express, voted six to one in favor of a "psh"—fancy—wedding, arguing that the boost in public morale, to say nothing of the princess's presumable delight in a big wedding, would be well worth the cost.

For all the government's intentions, however, the Elizabeth-Philip nuptials seemed unlikely to rival in magnificence such pre-war weddings as that of the Duke of Kent, younger brother of King George VI, to Princess Marina of Greece in 1934.

For one thing, peers won't be wearing their ermine-trimmed state robes.

"The things just aren't about any more—the moths have been in them," The government spokesman said.

Women's long dresses are in short supply, too, because of clothes rationing.

Fancy foods also are unlikely to be served to the several thousand expected guests, and the nationwide drought of drinkables will curb the number and nature of toasts to her royal highness and her future consort.

No date will be set for the wedding until after the privy council meets July 31 to give formal approval to the engagement, but the government spokesman said that those concerned are "more strongly than ever" in favor of an October marriage.

One reason is that royal engage-

## BIRTHS

Congratulations are being received by Mr. and Mrs. Carroll Underwood, 403 South street, on the birth of a daughter yesterday in Sacred Heart hospital, Norristown.

Mr. and Mrs. William Higo, Star Route, are the proud parents of a daughter born yesterday in Memorial hospital.

A daughter was born yesterday in Memorial hospital to Mr. and Mrs. Herbert Borger, 64 Cedar street.

Congratulations are being received by Mr. and Mrs. David Martin, Pottstown RD 1, on the birth of a daughter yesterday in Pottstown hospital.

A daughter was born yesterday in Pottstown hospital to Mr. and Mrs. Donald Bernard, Boyertown.

Miss M. Oelschlager's Engagement Announced

Mr. and Mrs. Norman Oelschlager, Salford, announce the engagement of their daughter, Margaret, to Mr. Robert Bruce Whitney, son of Mr. and Mrs. Robert J. Whitney, Schwenksville.

Miss Oelschlager was graduated from Schwenksville High school and Ursinus college. She is now attending the graduate school of the University of Pennsylvania and in the Fall will resume her teaching position at Amherst High school, Amherst, Schwenksville. High school and is now attending Ursinus college. He is a United States Army veteran.

No date has been set for the wedding.

# Vacationing With Mercury Readers

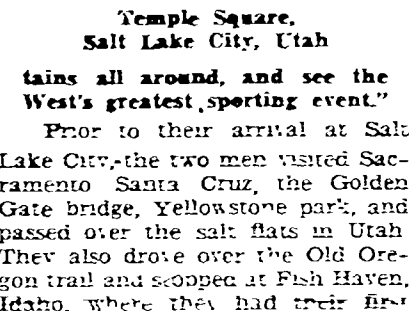

The big laugh with resorts that overlook a beautiful lake is that they sometimes overlook comfortable beds, good food and running water.

Funny thing is, people accept a lot on vacation that they wouldn't dream of taking at home over their dead bodies. If they have a cabin in the hills for a week and find ants in the kitchen... well, that's not so bad. The ants have to live, too. But at home—wow!—they'll go out to a hardware store and come home armed to the teeth with spray guns and ingenious insect traps.

In the mountains, half raw pork chops are delicious. At home, Rover would find them outside his doghouse. This is America.

Temple square in Salt Lake City, Utah, is shown here on a card sent by Harry Neuman, 115 South Evans street, and Steve Surman, 401 Race street. Some of the square is a center of interest covering an entire city block, and representing the Mormon sect.

These two travelers speak of viewing a special rodeo at Salt Lake

dispute even the appropriations committee's statistics and insist that some of the claimed savings are "phony." For example, they maintain the Republicans can't count as a saving an \$800,000,000 cut in appropriations for income tax refunds on the ground the money will have to be appropriated later.

Furthermore, Democrats contend, upwards of several hundred millions have been voted in contact authorizations for which appropriations must be made at a later date.

Privately, lawmakers of both parties acknowledge that there will be no definite way to determine how much the President's appropriation requests have been cut until June 30, 1948. Congress will continue to appropriate money for the

Early this year the House voted to trim \$5,000,000,000 from the President's overall spending budget of \$37,500,000,000 for the fiscal year that began July 1. The Senate lowered the proposed cut to \$4,500,000,000 and the two branches have failed to reach a compromise.

Republican fiscal leaders in the House have made no formal claims recently but are awaiting adjournment before announcing what they have accomplished. They privately count cutbacks of more than \$1,500,000,000 as part of their promised savings. These cancellations were of appropriations made in previous years but still not spent.

Democrats, on the other hand,

# Truman's Budget Pared 1 1/2 Billion; More Cuts Coming

WASHINGTON, July 23 (AP) — House appropriations committee statistics show today that on seven of the 13 supply bills already sent to President Truman, Congress has cut \$1,502,000,000 from the President's appropriations requests.

On the remaining six still on Capitol Hill, the House has voted reductions of \$1,411,000,000, but the Senate has restored \$603,000,000 of the House-voted cuts on four of them. The Senate has not considered the other two.

Early this year the House voted to trim \$5,000,000,000 from the President's overall spending budget of \$37,500,000,000 for the fiscal year that began July 1. The Senate lowered the proposed cut to \$4,500,000,000 and the two branches have failed to reach a compromise.

**BOND ISSUES —**  
(Continued From Page One)

Pottstown with a bid of 1 percent interest and \$37 premium.

The Security Trust company bid 1 1/4 percent interest and a premium of \$255.50.

Benjamin H. Shoemaker, of the firm of C. C. Collings and company, Philadelphia, said that the rate of interest on both the issues was a fine credit rating. He said there are 535 boroughs in this State and Pottstown is in the first ten on the basis of financial rating.

He said the rate on the water issue was unusually good for a long term bond issue and he commented on the 1 percent rate on the \$45,000 issue saying he knows of very few cases where the rate has been that low.

On the \$1,500,000 non-callable issue, there were 14 bids with 57 bidders, while on the callable issue there were 11 bids and 47 bidders.

On the smaller issue, there were eight bids with 22 bidders. Bids were received from financial institutions in New York, Philadelphia, Chicago, Cleveland, Baltimore and other cities.

Following the announcement of the successful bidders by President of Council C. Roy Bush, two ordinances authorizing the bond issues were given three readings without opposition on motion of Chairman C. Max Creswell of the Water committee and J. Wayne Knause.

Following attended the meeting: Bush, Creswell, Knause, Gerald Daly, Harry E. Yerger, E. B. Heck, Elmer Fegley, Leon Dearolf, William Reifsnnyder, Peter J. Lawler, Charles Satterthwaite, William Bernhart, William Romich, William Twaddell and Allen K. Davidheiser.

The bond issues of \$1,500,000 and \$45,000 represent the largest amount in the history of the borough. Previous issues follow:

Sewer and sewage disposal bonds, issue of 1923: Total \$200,000; interest rate, 4 1/2 percent.

Borough hall bonds, series of 1924: Amount, \$59,000; rate of interest, 4 1/2 percent.

Permanent paving bonds, series of 1927: Amount, \$58,000; rate of interest, 4 1/2 percent.

Sewer disposal bonds, series of 1931: Amount, \$500,000; rate of interest, 4 1/2 percent.

Improvement bonds, series of 1937: Amount, \$50,000; Rate of interest, 2 percent.

Sewer improvement bonds, series of 1940: Amount, \$50,000; rate of interest, 1 1/2 percent.

Fire apparatus bonds, series of 1943: Amount, \$21,000; rate of interest 1 percent.

The present bonded indebtedness totals \$572,000. There is also a \$5000 Federal loan owed by the borough.

Debt service charges of the borough for 1947 are as follows: Principal, \$32,018.25; interest and tax, \$21,945.72; total, \$53,963.97.

Based upon the company's present rates, which the borough proposes to continue, the net income of the waterworks under municipal ownership and operation has been estimated by the borough officials as follows:

Operating revenue, \$137,500; operating expenses: Purification system, \$10,197; pumping system, \$21,326; distribution system, \$5619; general expenses, \$12,937; total, \$50,079.

Operating income, \$87,421; non-operating income, \$2000; gross income, \$89,421, less salaries and expenses of water commission and consulting engineer's fee, \$2421. Income available for debt service, \$87,000.

The estimated annual net income of \$87,000 is \$21,500 more than the anticipated \$65,500 required to pay interest on serial retirements of \$1,500,000 principal amount of 30-year bonds. The excess of income over debt service requirements over 30 years would amount to \$645,000, which could be used for additions to plant, for accelerated bond retirement, or for reduction in rates.

**Sports Contests Highlight Annual Emmanuel Picnic**

Taking advantage of perfect picnic weather, more than 1100 members of Emmanuel Lutheran church and Sunday school virtually took over Sunnybrook park yesterday afternoon and evening for a day of swimming, softball, picnicking, contests and dancing.

Said the Rev. Luther A. Krouse, pastor of the church, "During the 16 years that I have been pastor of the congregation, we have never had to cancel a picnic because of rain, although the St. Swinnis record had us rather worried this time."

The day of outdoor sports was climaxed last night by a floor show and dance in the ballroom, featuring George Welsh and his orchestra.

Afternoon entertainment was highlighted by free pony rides for some 300 children from the nursery, primary, beginners and junior departments. The surprise came when Mrs. Luther A. Krouse displayed her agility by accepting a ride with the youngsters.

In three different softball games during the day, the Intermediates beat the Junior boys, 11-10; the Intermediates outplayed the Junior girls, 9-5; and the Young Men's Bible class defeated the Altmen's class, 11-10.

General chairman of the picnic was Myron B. Humes. Assistants were LeRoy Moyer, Mr. and Mrs. A. W. Koppenhaver, Miss Mary A. Mertz, Miss Dorothy Barker, Mrs. Harry D. Purnell and Linford Richard.

Contest winners in the primary division were George Jacobs, Jimmy Fanning, Fay Hiltwine, Mary Louise Hawkins, Patty Bell, Barbara Brown, Edith Mayberry, Buddy Precup, Freddie Smith and Douglas Keim.

Junior winners were Marilyn and Beverly, Dennish, Mildred Leffel, Georgeann Jacobs, Patty Poitz, Sylvia Meeker, Shirley Freyer, Joanne Levingood, Barbara Dewalt, Esther Moser, Barbara Yocum, Doris Seibold, Heather Davidliser, Richard Pine, Daniel Levingood, Wilmer Kinckner, Donald Skean, Martin Wambol, Donald Hess Edmund Sobresky, Mahlon Hamel, Fred Minster, Paul Mentzel, Robert Embody, James Stetler and David Reichman.

**UNITED NATIONS —**  
(Continued From Page One)

committee, the parent Security Council resumed discussions of the Greek case where Albania has been accused—along with Yugoslavia and Bulgaria—of fomenting Balkan border disorders.

Krasnikor delivered a 30-minute speech castigating the Western powers for their opposition to the admission of Albania and accusing them of attempting to "undermine the young peoples republic of Albania."

He said all the reasons advanced by the United States and Britain were based on "false accusations" and that they were attempting to get the Thirana government to accept conditions dictated by foreign powers. He added that certain powers would not be satisfied unless they could seat a man on the Albanian general staff to suppress the democratic element in Albania.

He repeated Soviet arguments advanced for Albania and against Greece from recent months and termed opposition contentions as all "lies."

As Krasnikor finished speaking, Laoford, sitting next to him, turned, looked directly at the Soviet representative and said in measured words:

"It is deplorable that we should be subjected day after day, week after week, month after month to this junk about provocations, lies, noises and repetitions. We are presumed to be intelligent officials and not a gathering of illiterates."

"We draw our conclusions from facts and not from slogans and wish words. I term the Soviet speech a regrettably offensive production."

**Wage Increase Ends Communication Strike**

NEW YORK, July 23 (P)—Agreement on a 10 cents an hour wage boost early today quickly ended a strike of 2000 employees of subsidiaries of the International Telephone and Telegraph company, which threatened to disrupt one-third of the nation's foreign cable and radio facilities.

The walkout began at midnight, but the settlement was announced at 2:30 a. m. and by 5 a. m., the union members had ratified the agreement. About 1700 of the 2000 cables employees involved work in New York City.

**LAMB TO PRESS —**  
(Continued From Page One)

that was held here and the board will recommend further instruction periods for the borough, if it is believed that the demand is great enough.

Lamb pointed out that the course involved considerable expense, and questioned whether the turnout for the schooling would be as enthusiastic if a charge of \$25 or \$30 were made.

Hoping for a new membership class of 150 members to be inducted, the club plans to hold its annual picnic at Hershey on Sept. 7, when the Pottstown sand coming to play for the families of the automobile club members.

"We've had from 10,000 to 12,000 persons at our past picnics," Lamb declared, "and I hope we'll have at least that many this year."

Arthur S. Kepner, organization architect, reported that he had secured State approval for plans to remodel the now vacant Goldberg building, 155 High street, for club occupancy.

A new front will be raised, he said, and the first floor renovated for the convenience of club members. In addition, the second and third floor will be made into two apartments each.

**DUTCH FORCES —**  
(Continued From Page One)

agreement which failed to work in practice and touched off current hostilities.

The capture of Cheribon occurred as Indonesian republicans began a systematic application of a scorched earth policy.

Four republican towns were put to the torch by the republicans, an Indonesian communiqué announced. Salatiga, important objective south of Semarang, was burning when Dutch forces, driving from Semarang toward Jogjakarta entered the town. Salatiga lies 46 miles by road across mountainous terrain from Jogjakarta.

The retreating republicans also put the town to Lawang, 12 miles north of Salatiga, in east central Java, toward which other "Dutch" forces were advancing, and to Soemadang and Tugalawka, 20 miles east of Bandoeng, in Western Java.

**WAGE INCREASE ENDS COMMUNICATION STRIKE**

NEW YORK, July 23 (P)—Agreement on a 10 cents an hour wage boost early today quickly ended a strike of 2000 employees of subsidiaries of the International Telephone and Telegraph company, which threatened to disrupt one-third of the nation's foreign cable and radio facilities.

## Record-Breaking Crowds Attend Freese Sales

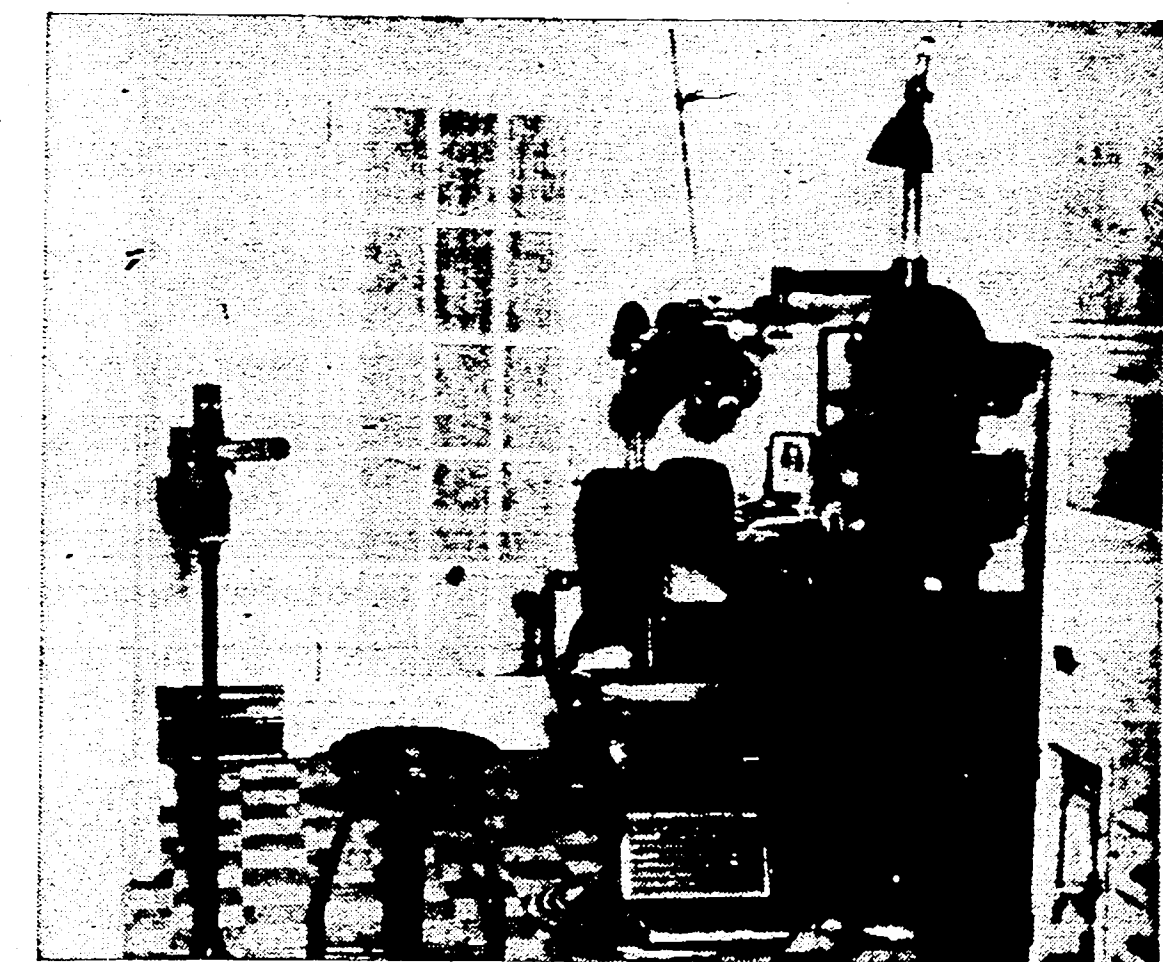

"THE largest display of furniture under one roof in this area" is not an idle boast when applied to the **FREES MARKET** on State street. Every foot of floor space in this massive exhibition building is loaded with the most desirable furniture available. Breakfast sets, dinettes, living room suites, bedroom suites, dining room suites, bureaus, vanities, ottomans, etc., are there in great profusion. Every conceivable style of floor and table lamp, rugs, ranges, pictures and mirrors—**EVERYTHING FOR THE HOME**—can be found at **FREES MARKET**. Patrons will remember that while **FREES MARKET** and **AUCTION** operates on a Friday night, but that the furniture department is open daily from 9 a. m. to 9 p. m. Purchasing during the weekdays is more thoroughly enjoyed, rather than a Friday night when thousands of people crowd the market.

## Thousands Enjoy Levengood's Ice Cream

**QUALITY** of merchandise, coupled with convenience of locations, has resulted in a most remarkable volume of business for **LEVENGOOD DAIRY FARMS ICE CREAM**. Principal outlet for Levengood-Ice Cream is the cup at Charlotte and Prospect streets. Delicious milk shakes, pretzels, potato chips, candy and all dairy products, rounds out a popular selection for the thousands who patronize the cup weekly. Other volume outlets for Levengood Ice Cream are located on West High street and at the dairy at Chesnut and Washington streets. Numerous retail dispensaries sell Levengood Ice Cream, including Marvin's Cup, at West street and Farmington avenue.

## Modern Equipment Used in Office of Dr. F. F. Meyers

IT'S Wonderful: This is one of the Examination Rooms of **DR. MEYERS, OPTOMETRIST**, 7 North Hanover street, Pottstown. Every known scientific instrument for the care and examination of the eye is included in the equipment. **DR. MEYERS**, Optometrist, has been in Pottstown 38 years, devoting his entire time to eye care. He is widely known throughout Pennsylvania.

POTTSTOWN'S  
PICTORIAL  
HIGHLIGHTS

## Dine At the East End Restaurant

**MANY** a surprise awaits you when you make your selection from the menu at the **EAST END RESTAURANT**, 92 South Keim street. You'll enjoy the deliciously prepared foods, done to the connoisseur's discriminating taste. Pleasant, cheerful surroundings abound for your comfort and satisfaction. **EAST END RESTAURANT** serves full course dinners daily from 12 to 7, featuring a Sunday dinner that rivals the finest obtainable.

**MOST** complete and exceptionally pleasant is the service at the **CITIZENS NATIONAL BANK AND TRUST CO.**, High and Franklin streets. The GI himself is the best person to testify to the cordial reception received at **CITIZENS**. President Frederick G. Erb makes the GI contact a personal matter. Photo above shows workmen cashing their pay checks, another facility provided by the **CITIZENS NATIONAL BANK**. Convenient location prompts thousands of workmen to use and appreciate this payroll service.

## Complete Auto Service at Frank Hoffman's

**YOU'LL** get more from that car of yours if you have it inspected regularly by a competent service man. And, today, more than ever, taking care of your car is of paramount importance if you want to ride instead of walk. To many motorists who practice keeping their cars in top condition, **HOFFMAN & SON SERVICE GARAGE**, 316 N. FRANKLIN STREET, is first choice for the work. This is because the proprietor, Frank E. Hoffman, is thoroughly experienced and capable in automotive work, and, at the same time, is reasonable in his charges. So if you want your car to last, better let Hoffman & Son look it over.

## Modern Eye Methods Used by Dr. Baumann

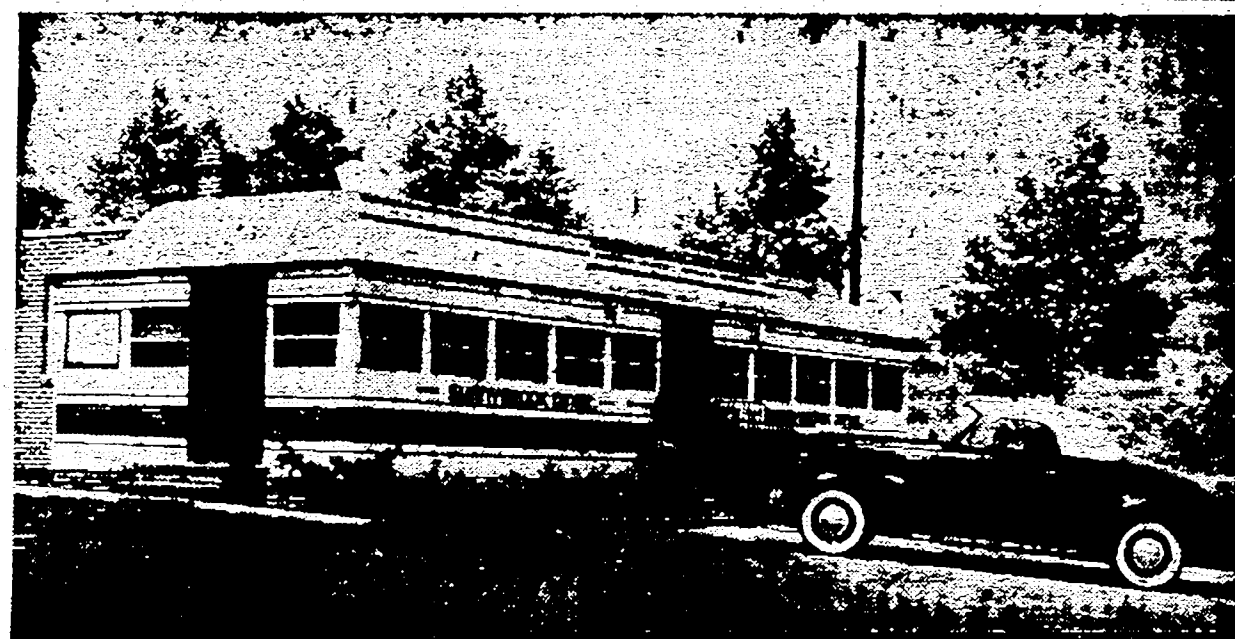

**DR. H. C. BAUMANN, OPTOMETRIST** — **EYESIGHT SPECIALIST**, whose office is located at 215 High street, opposite the Hippodrome Theater. Your eyes are examined by the most modern methods known to the scientific world — no drops are used. A complete optical laboratory on the premises, to quickly fill prescriptions and repair broken lenses and frames.

## Burton's Popular With Spring Style Seekers

**TRUE** to the promise made to the shoppers of Pottstown at the time of their opening, **BURTON'S**, 215 High Street, is crammed full of the latest in Spring fashions and milady need go no further to find the things she wants to wear. **BURTON'S** is conscious of the fashion desires of the women of this locality. The liberal patronage accorded them attests to their judgment in style.

## Sunnybrook Diner One of Pottstown's Highlights

**AMONG** the most popular food places in Pottstown is **SUNNYBROOK DINER**, located at Beech and High streets. Several factors enter into the popularity of this food house, the principal one being the superb quality of the food. Amid most pleasant appointments, the joy of eating at Sunnybrook Diner is accentuated by the speed of the service. Years of experience in handling large crowds qualifies Earl Sheeley's **SUNNYBROOK DINER** as the logical place to go for food when the minutes are precious. You can't improve on the quality of the food.

## Bechtel's Luncheonette and Fountain Popular

**EVEN** though the weather has been anything but favorable to increased ice cream consumption, activity around **BECHTEL'S LUNCHEONETTE AND FOUNTAIN**, at High and Meier Road, has been greatly on the upswing. The popularity of this establishment is attested to any evening, when the younger element find it quite a spot for recreation and joviality. Great care is exercised by the management in providing prompt and pleasant service to all. All this, plus a par excellent product, make for a very cheerful and tasty visit to **BECHTEL'S**. Try it yourself!

# U. S. Stands Firm on Truman Doctrine To Aid Nations Against Communism

LAKE SUCCESS, July 23 (AP)—The United States made it clear to the United Nations today that she had no intention of abandoning the Truman doctrine of military aid to countries threatened by Communism.

The American position was set forth by Assistant Secretary of State William L. Thorp, who told the economic and social council the United States was strongly opposed to a Russian proposal to prohibit international loans for military purposes.

Thorp spoke after Britain and France had challenged another Soviet declaration that certain powerful nations were seeking to impose an economic dictatorship over the weaker countries.

"Unfortunately," he said, "in some parts of the world today there is a relationship between military and economic matters. We do not favor large armaments but we feel we must attack the problem directly."

"By this (the Soviet) suggestion we are permitting countries which have large resources to militarize and saying that those countries which need assistance may not do so."

He said this would be "discriminatory."

Soviet Delegate Alexander P. Morozov said he had observed a tendency on the part of some powers "to regard economically less-developed countries not as sovereign, but as merely a supplement to the developed countries."

This tendency, he said, meant "dictating" to the under-developed countries what they should produce, import and export.

Russia was supported by Czechoslovakia.

French Delegate Georges Bonin declared he could find no basis for Soviet charges that there was "a tendency to victimize weaker countries for the benefit of stronger ones."

British Minister of State Hector McNeill said Russia took the attitude that if economic aid is offered to certain countries the sovereignty of these countries is reduced.

He pointed out that Russia had entered into agreements to aid Poland, Czechoslovakia, Romania and Yugoslavia and added:

"I hope these agreements were entered into freely. I hope the sovereignty of these recipient countries has not suffered from these agreements."

Czechoslovak Delegate Ladislav Radimsky urged the economic and employment commission to assert its jurisdiction over questions being considered by all international economic organizations — even those outside the U. N.

He did not mention the 16-nation economic committee set up in Paris to implement the Marshall plan, but he made it clear that he was referring to this body. He said "events of the past weeks" had made it "more important than at any other time" that the commission co-ordinate all economic problems.

Only one percent of Australians have taxable incomes of \$2000 per annum and over.

# Marshall Tells 'Inside Story'

Completing his first six months in office, Secretary of State George C. Marshall (center) gives a 90-minute "inside report" on the international situation to the House foreign affairs committee, headed by Rep. Charles A. Eaton (R-N.J.) (left). At right is Rep. Sol Bloom (D-N.Y.) ranking minority member.

# Youngsters Display Variety of Pets At West Pottsgrove

West Pottsgrove playground was turned into a first-class zoo yesterday afternoon when approximately 35 children put up their various and sundry pets for display.

Trying for blue ribbons and candy prizes, the youngsters entered their contestants in a widely-competitive pet show that involved cats, dogs, minnows, frogs, rabbits and fan-tail pigeons.

Awards were presented as follows: Oldest pet, a six-year-old terrier, to Mary Ann Cancelliere; youngest pet, twin puppies four weeks old, Joan Egolf; smallest pet, tropical fish, Tony and Beatrice Cellucci; largest pet, a hunting dog, Gabriel Nore; best dressed pet, a chicken garbed like a little old lady, Robert Sabo.

Trickiest pet, a fancy performing terrier, Judy Osterreider; prettiest pet, a white and blue-gray rabbit, Wanda Edingers; cutest pet, a one-month-old white rabbit, Pauline Miklusak; most original pet, a fantail pigeon, Elmer Sabo; and the most pets, four Cocker spaniel puppies, Paul Strzelecki.

Of particular interest in the playground area recently have been three girls' softball teams. The Bluebirds, captained by June Edwards, thus far has succeeded in routing Captain Helen Moletiz, Stowettes, and the Bobby Sockers, captained by Mary Melchoire.

Tryouts for both the Red and Blue boys' track teams also took place yesterday. The two teams will hold their final meet Friday afternoon. Thomas Strickland coaches the Red team, while Richard Edwards has charge of the Blues.

Mrs. Mary E. Kreibel and Ray P. Firestone, playground supervisors, led the day's activities.

# 200 Persons Attend Playground Dance

The third of a series of playground dances was held last night at 7:30 o'clock, in the St. Clair building, South \*and\* Charlotte streets, with 175 children and 20 parents present.

Specialty dances, featuring the evening's entertainment, were won by Sonny Quinter, Robert Tito and Joanne Perrucci, magic carpet contest, and Marie Quinter and Bernadette Corum, elimination dance.

Chaperones were Robert Scheffey and Phyllis Bertolet. St. Clair playground supervisors: Lorraine Hurter and June Rapine, Rupert school, and Francis Donnon, recreation director.

# New Atomic Weapons Being Produced In Pacific, Lillenthal's Report Shows

WASHINGTON, July 23 (AP)—The atomic energy commission reported today it is giving "major attention" to developing and producing atomic weapons and that it is establishing proving grounds in the Pacific to test them.

At the same time, the commission said it is busily trying to turn atomic energy into peacetime uses, particularly in the fields of health and the eventual use of atomic energy for power.

The statements were made in the commission's second semi-annual report to the President.

Noting that Congress had told it to give paramount attention to "the common defense and security," the five man board headed by David E. Lillenthal said:

"Accordingly, major attention is given to development and production in the field of atomic weapons. The magnitude of the program has been fixed by the President acting with the advice of the armed forces."

"Carrying out the program is largely a function of the commission's Los Alamos, N. M., laboratory. Activities at this point are necessarily conducted under severe security restrictions, and no details will therefore be presented in this report."

"The atomic energy commission is establishing proving grounds in the Pacific for routine experiments and tests of atomic weapons."

There was no elaboration on these proving grounds, their place or nature. The Navy the past year conducted some tests of the atomic bomb at Bikini atoll in the Marshall Islands about 4500 miles west of the West coast.

The commission said in a summary of its work:

"We mean to maintain and increase the present pre-eminence of the United States in atomic weapons until such time as the Congress affirms that acceptable international agreements have been reached and the appropriate machinery has been established to insure that this activity can be relaxed without endangering the national security."

(At New York today, a working committee of the United Nations atomic energy commission heard Russia and the United States reaffirm their sharply opposed positions as to whether there should be any big power veto authority in an international atomic control system. Russia said the veto power must not be altered as to important matters.)

The commission said that extensive security measures are taken to protect atomic secrets from leaking out.

# Fire Police to Meet At Gilbertsville Tonight

The monthly meeting of the Pottstown Fire Police association will be held tonight at 8 o'clock at the firehouse of the Gilbertsville fire company. President Charles B. Wolfgang will be in charge of the session.

# FRENCH SIGN TREATY

PARIS, July 23 (AP)—In the presence of Senora Eva Duarte Peron, France and Argentina signed tonight a new commercial treaty by which France will receive 600,000,000 pesos (\$148,200,000) in credits for essential food purchases from the South American country.

# Heifer Begins Trip To Texas by Plane

At 2:45 o'clock this morning a startled three-month-old heifer, a Guernsey from the Laurel Locks farm, was crated and hoisted on a TWA lines plane leaving from Reading for the West, for her long trip to Dallas, Texas.

Miller C. Long, manager of the farm, watched in relief as the plane left the ground, for the shipment climaxed almost a week of preparation and worry that the trip could not be completed.

He sent the pure-bred heifer to the North Star Guernsey farm as an experimental step — the first air trip for a calf in this State he believes — and if the journey is successful, expects to repeat the procedure.

The air trip will take from 12 to 24 hours, as compared with the four days of a train ride, and Long considers the time, energy, and expense justified by the fact that the air trip will be better for the youngster.

At the last minute, the definite route of the heifer was settled finally, and it was certain that TWA would fly her only to Chicago, where the American airlines will take over for the remainder of the journey to Dallas.

Long previously had called the Philadelphia and Allentown airports, both of which refused to handle his calf, before beginning to negotiate with the Reading Municipal airport officials for the unusual cargo.

# FIRE CHIEF PASSES

WILKES-BARRE, July 23 (AP)—Harry M. Weir, 52, chief of Kingston Fire department, and West Side plumbing contractor, died today of a heart attack. He was stricken while working on a new apartment building.
